ePhyto System - Argentinean Situation

◉ National Direction on Plant Protection (Argentinean NPPO)

ePhyto System - Argentinean Situation

Development of the Phytosanitary Certification System – Based on ISPM 7

The IPPC states in its Article V.1:

*Each contracting party shall make arrangements for **phytosanitary certification**, with the objective of **ensuring that exported plants**, plant products and other regulated articles and consignments thereof **are in conformity with the certifying statement***

Contracting parties should **develop and maintain a phytosanitary certification system** for **certifying compliance** of plants, plant products and other regulated articles **with the phytosanitary import requirements** of importing contracting parties as well as their freedom from regulated pests.

The system for the issuance of phytosanitary certificates **includes the components** of legal authority, administrative and operational responsibilities, resources and infrastructure, documentation, communication and system review.

ePhyto System - Argentinean Situation

Development of the Phytosanitary Certification System – Based on ISPM 7

The NPPO should have the capability to undertake the following functions:

- **document and maintain the information** regarding the phytosanitary import requirements and provide instructions to personnel
- **perform inspection, sampling and testing** detect and identify pests
- **perform, supervise or audit** the required phytosanitary **treatments**
- **perform surveys and control activities**
- **complete and issue phytosanitary certificates**
- **produce operational instructions**
- **archive copies of issued phytosanitary certificates** and other documents
- **implement safeguards** against potential problems such as conflicts of interest and fraudulent issuance

**Land
borders
9.376 km**

**Coast line
5.117 km**

ePhyto System - Argentinean Situation

Phytosanitary Certification System - Main Functions

- Maintaining the Import Requirements
 - ✓ Web based, available to the public
 - Currently, contains **4,639 valid import requirements**
 - ✓ Facilitating Inspector's task through knowing in real time the official import requirements in order to guarantee the compliance of obligations specified in ISPM 12 *Phytosanitary certificates*

ePhyto System - Argentinean Situation

Phytosanitary Certification System - Main Functions

- Issuance of Phytosanitary Certificates in paper (and re-export Phytos, attachment to phytosanitary certificates, annexed Notes)
 - ✓ Phytosanitary Certificates are required by exporters
 - ✓ They are approved and issued by the Argentinean NPPO
 - ✓ Web Platform

- Tracking of all the information that support the Phytosanitary Certificates in Real Time

- Safeguard Measures for the paper used for Phytosanitary Certificates

ePhyto System - Argentinean Situation

Phytosanitary Certification System - Main Functions

➤ The System is adapted to:

- ✓ *Different kind of consignment and different way of trade: Grains (Bulks), fruits, cut flowers (perishable), seeds, wood.*
- ✓ *Different type of transportation: Terrestrial (trucks, containers, trains) , Aerial (airplane), Maritime and river (vessels, barge)*
- ✓ *Different place of issuance: Airports, ports, land borders.*

ePhyto System - Argentinean Situation

Phytosanitary Certification System - Secondary Functions

- Payments management
- Certified copies management
- Growing season inspection reports
- Lab analysis requests
- Record of Lab analysis and growing season inspection results
- Statistical data
- All in the Real Time

ePhyto System - Argentinean Situation

Phytosanitary Certification System - Phytosanitary certificates issued

➤ 100% of the Phytosanitary Certificates registered by the system since October 2012 (402.281)

- ✓ 99.8% Created through the system (401.304)
- ✓ 0.2% Created manually and then introduced into the system (977)

	2014	2015 (10 months)
System	125.841	110.487
Manual	293	226
Total	126.134	110.713

ePhyto System - Argentinean Situation

System users

- External users: 7.475 (in the last year)

Authentication of external users provided by the federal administration of public revenue organization

- Internal users: 769

- Offices where the phytosanitary Certification is issued: 77

ePhyto System - Argentinean Situation

ePhyto in Argentina

The Argentinean NPPO is currently not yet creating and exchanging electronic certificates (ePhytos)

Once the **ePhyto Hub** is developed and working...

From here

to there

ePhyto System - Argentinean Situation

ePhyto in Argentina

The Argentinean NPPO will adjust the National **Phytosanitary Certification System** in a short term to begin to exchange first **ePhyto** during 2016
