

Foundational IPPC Training materials: building for the future

Regional IPPC Workshops
2014

This Presentation:

- **IPPC Capacity Development Strategy**
- **Capacity Development: core training material**
 - **How topics were determined**
 - **What resources are being developed**
 - **Status and next steps of NPPO management materials**

IPPC Capacity Development

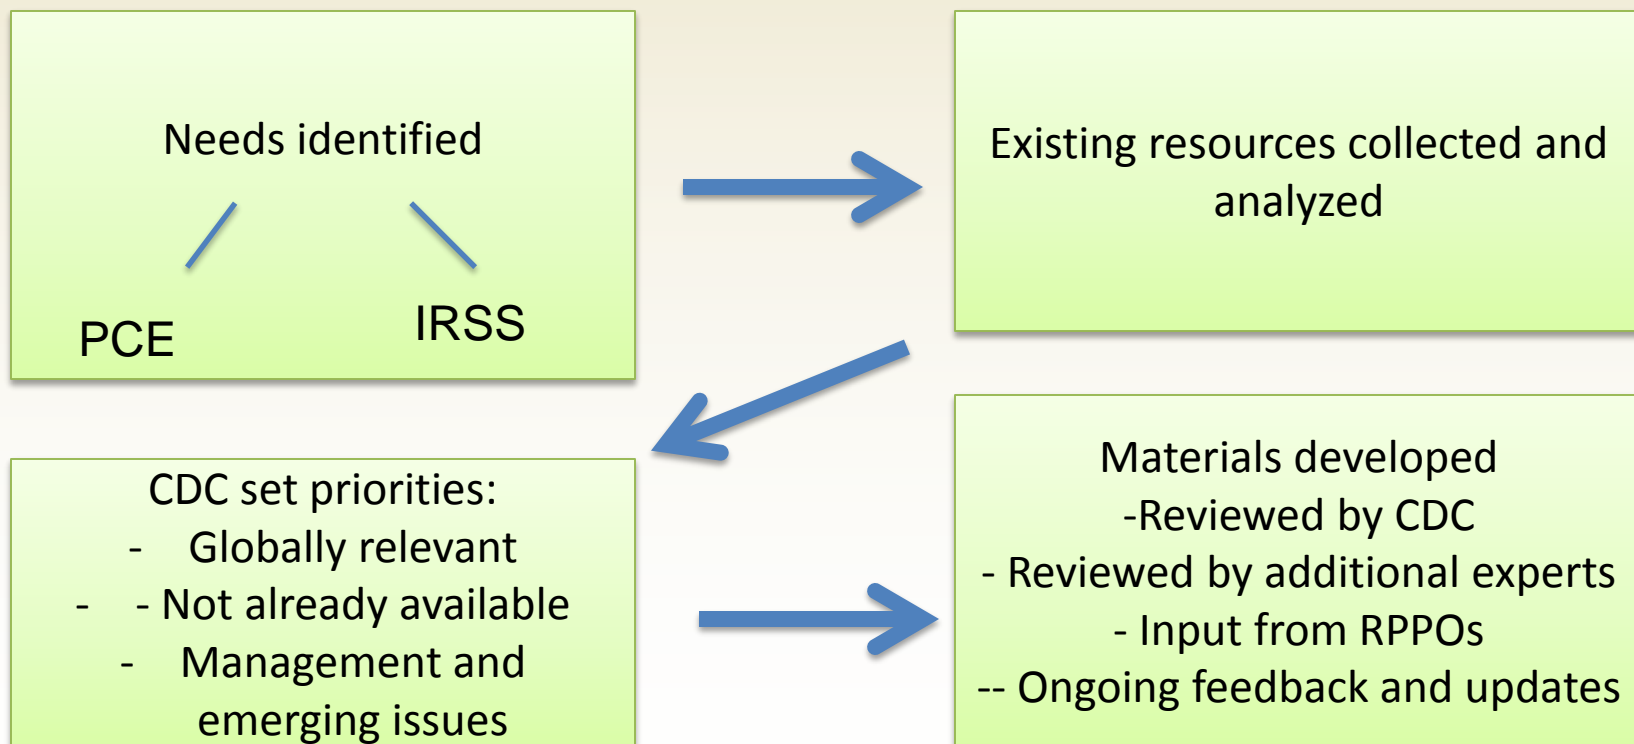

- **Capacity development strategy adopted by CPM in 2009**
 - **Strategy development evolved from years of discussions and working groups**
- **Capacity Development Committee formed in 2012 with initial term of two years**
 - **CDC membership includes participants from all 7 FAO regions**
 - **Participants selected based on expertise**

Recent IPPC updates: Implementation

- **Emerging area of interest in IPPC community**
 - **Implementation review and support system**
 - **Project-funded activities**
 - **Surveys and desk studies offer insights, management a key issue**
- **Ongoing implementation discussions**
 - **Several points at CPM-8 (2013)**
 - **Discussion item for Strategic Planning Group 2013**

Capacity Development: Technical resources

How they are developed

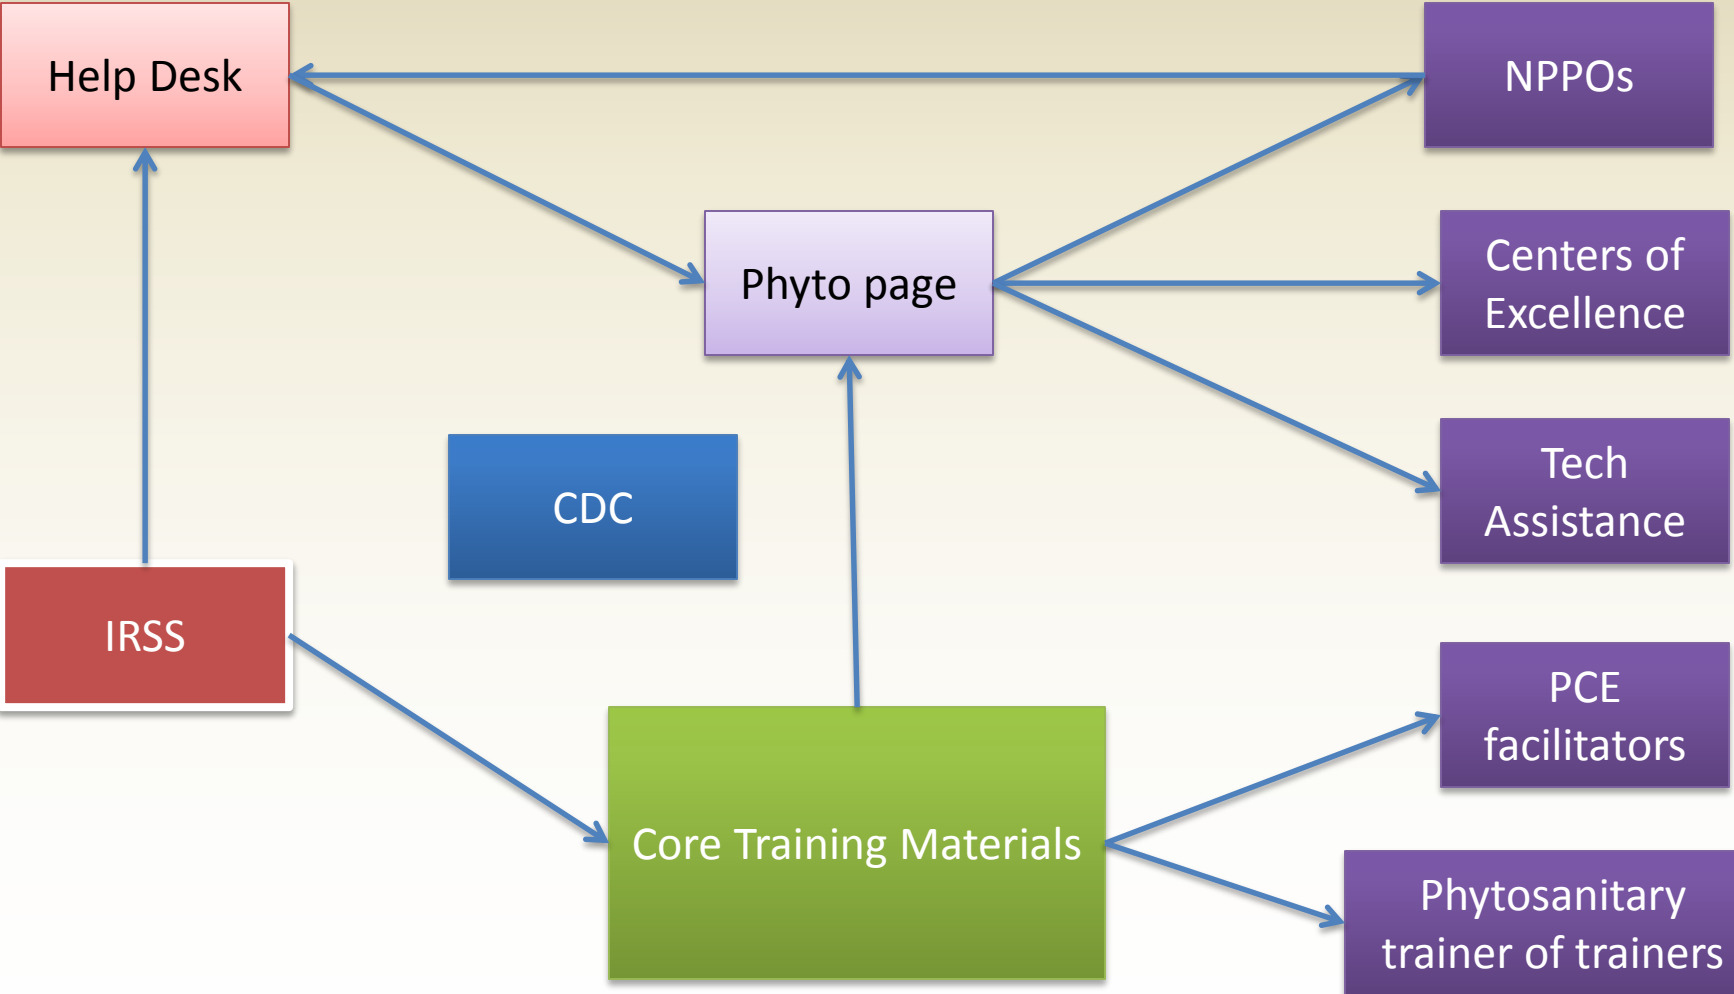

Over 20 resources In Progress: (slide 1/2)

- **NPPO establishment (manual, training kit)**
- **NPPO operations (manual, SOP, training kit)**
- **Export certification (manual, SOP, training kit)**
- **Phytosanitary measures for export certification (manual, SOP, training kit)**
- **Import verification (manual, SOP, training kit)**
- **External/stakeholder relations (manual)**

In Progress: (slide 2/2)

- **Surveillance (manual)**
- **PRA (information kit on importance of PRA)**
- **IPPC participation (manual, training)**
- **Import/export of forestry products (e-learning training)**
- **Dielectric heating (manual)**
- **Market access (manual, e-learning)**
- **Transit (manual)**
- **Equivalence (manual)**

Core Training Materials: A Foundation for Future Activities

Status and next steps of materials

- Some materials are already available at www.phytopsanitary.info
- Other materials are in development
- All materials reviewed by CDC at least twice, and also by additional experts
- Publication online (PDF) (no printing without partner funding)
- Pilot testing and feedback (through partnership with NPPOs, RPPOs and other partners)
- Translation (through partnerships)

What next?

- Resources will be available at www.phytopsanitary.info
- Please give us your feedback – let us know how you used them, what was useful, any suggestions
- Explore options for using these in projects, partnering to fund translation, printing, workshops

Thank you!
