English (United States)

- In 2011 an inventory of available technical resources in all languages was made, through a call to IPPC contracting parties, RPPOs and other relevant institutions and organisations.
- Nearly 400 manuals, reports, handbooks, guidelines, links, etc, have been received by the Secretariat.
- Reviewed by the relevant subsidiary body(-ies) and appear publically in the phytosanitary.info site after approval
- Diagnostic protocols, pest information factsheets, PRA material and bilateral agreements are exceptions for review.
- Disclaimer: Published phytosanitary technical resources included in the phytosanitary.info website are not endorsed/adopted/agreed by the [CPM](#)

Procedure to review technical resources

- 1: Identify, collect and compile submitted resources**
- 2: Submit list and resources to the CDC or other relevant subsidiary boy-(ies)**
- 3: Develop a procedure**
- 4: Review and note resources**

At phytosanitary.info you can find and **contribute** phytosanitary technical resources from and to the world's plant protection community. Over 200 resources are currently available on the page including manuals, guides, pest information, diagnostic protocols etc.

Useful tools and databases:

- **Newly launched Roster of Consultants**
 - **Project and activities databases**
- **E-learning course on Pest Risk Analysis
(Spanish and English)**
 - **Soon available Donor's Table**

Roster of Consultants

- **Web-based database of service providers on phytosanitary issues**
- **Offer information on self-nominated experts with competencies in developing phytosanitary capacity.**
- **Intended to help national plant protection organizations, organizations/institutions and other stakeholders find the expertise they need to successfully implement phytosanitary capacity developments projects and activities around the world.**
