

Phytosanitary Resources page

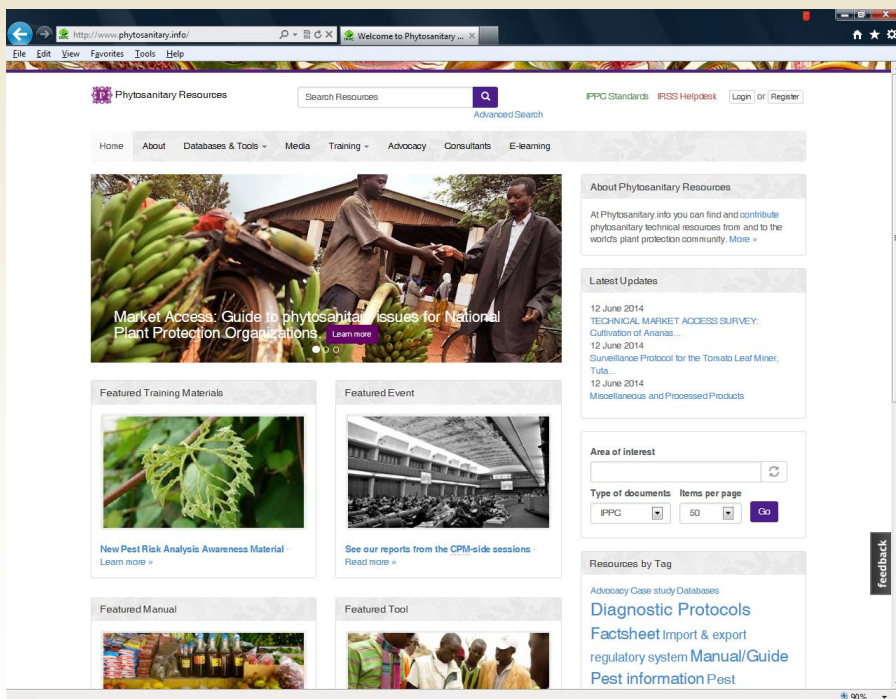

Regional IPPC Workshops 2014

Introduction

Phytopsanitary Resources page

<http://www.phytopsanitary.info>

- Information platform for technical resources to support implementation of the IPPC and ISPMs
- The published resources are not endorsed/adopted/agreed by the CPM unless otherwise indicated

Contents of Phytosanitary Resources page

- **Project & Event databases**
- **Phytosanitary Capacity Evaluation (PCE) tool**
- **Media library**
- **Training materials**
- **Advocacy**
- **Roster of consultants**
- **E-learning**

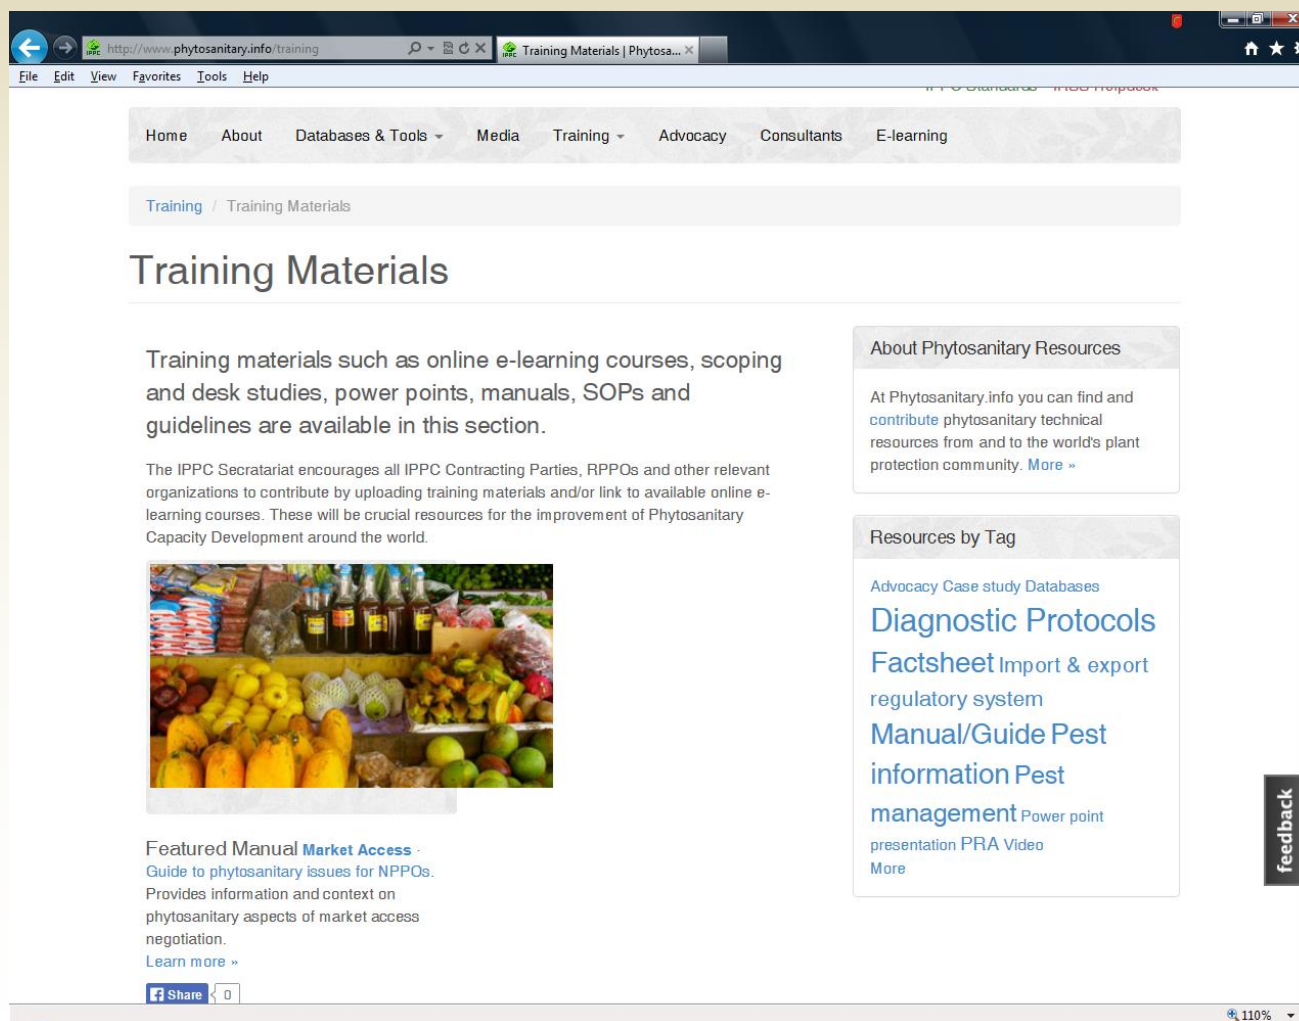

Recent updates

- **New layout page re-launched in March 2014**
- **The technical materials produced under the auspices of the IPPC/CDC have been posted (Market access manual, Transit manual, Dielectric heating factsheet, PRA awareness-rising materials)**
- **Existing technical materials submitted have been reviewed by the CDC and posted regularly**
- **The reports, videos and materials used in side events and training session in CPM-9 have been posted**

Training materials

<http://www.phytosanitary.info/training>

The screenshot shows a web browser window with the URL <http://www.phytosanitary.info/training>. The page has a navigation bar with links: Home, About, Databases & Tools, Media, Training, Advocacy, Consultants, and E-learning. Below the navigation bar is a breadcrumb trail: Training / Training Materials. The main heading is "Training Materials". The text describes training materials available, including online e-learning courses, scoping studies, power points, manuals, SOPs, and guidelines. It mentions that the IPPC Secretariat encourages all IPPC Contracting Parties, RPPOs, and other relevant organizations to contribute by uploading training materials and/or linking to available online e-learning courses. A photograph of various fruits and vegetables is displayed. Below the photo, it features a manual titled "Market Access - Guide to phytosanitary issues for NPPOs" and provides information and context on phytosanitary aspects of market access negotiation. A "Learn more" link is provided. On the right side, there is a section titled "About Phytosanitary Resources" and another titled "Resources by Tag" which lists various resources like Advocacy, Case study, Databases, Diagnostic Protocols, Factsheet, Import & export regulatory system, Manual/Guide, Pest information, Pest management, Power point, presentation, PRA Video, and More. A vertical "feedback" button is located on the right edge of the page.

Training / Training Materials

Training Materials

Training materials such as online e-learning courses, scoping and desk studies, power points, manuals, SOPs and guidelines are available in this section.

The IPPC Secretariat encourages all IPPC Contracting Parties, RPPOs and other relevant organizations to contribute by uploading training materials and/or link to available online e-learning courses. These will be crucial resources for the improvement of Phytosanitary Capacity Development around the world.

The screenshot shows a web browser window displaying the 'Phytosanitary Resources' website. The page features a navigation bar with links to Home, About, Databases & Tools, Media, Training, Advocacy, Consultants, and E-learning. A search bar is located at the top right, along with 'Login' and 'Register' buttons. The main heading is 'Pest Risk Analysis', followed by a paragraph explaining its importance for agriculture, trade, food security, and the environment. Below this, there are three columns of content: 'What is Pest Risk Analysis?' with a dice icon, 'Food Security' with an image of a pest-infested fruit, and 'Trade' with an image of a cargo ship. At the bottom right, a 'Resources for Pest Risk Analysis' box lists links to presentations, e-learning courses, training materials, international standards, and resources tagged 'PRA'. A vertical 'feedback' button is on the right edge of the page.

E-learning on PRA

<http://elearning.phytopsanitary.info/>

The screenshot shows a web browser window displaying the 'PHYTOSANITARY RESOURCES' website. The browser's address bar shows the URL 'http://elearning.phytopsanitary.info/course/index.php?cate...'. The website has a purple header with the title 'PHYTOSANITARY RESOURCES' and a language dropdown set to 'English (en)'. Below the header, a message states 'You are not logged in. (Log in)'. The main content area features a breadcrumb trail: 'Home → Courses → Pest Risk Analysis (PRA)'. A search bar is present with the text 'Search courses:' and a 'Go' button. A dropdown menu for 'Course categories:' is set to 'Pest Risk Analysis (PRA)'. Below this, a box labeled 'Courses on Pest Risk Analysis' is empty. A list of courses is displayed, each with a circular icon, a title in multiple languages, and a description. The courses are: 'Pest Risk Analysis' (English), 'АНАЛИЗ ФИТОСАНИТАРНОГО РИСКА' (Russian), 'Evaluación de riesgo en plagas vegetales - Région Andina' (Spanish), and 'Evaluación de riesgo en plagas vegetales - América Central' (Spanish). A 'NAVIGATION' sidebar on the right lists the site structure: 'Home', 'Capacity Development Training', 'Courses', and 'Pest Risk Analysis (PRA)' with sub-items: 'PRA', 'PRA Ru', 'ERPV - Région Andina', and 'ERPV - América Central'. The browser's status bar at the bottom shows '110%' zoom.

Events Database

<http://www.phytopsanitary.info/events>

The screenshot shows a web browser window displaying the 'Events Database' page. The browser's address bar shows the URL 'http://www.phytopsanitary.info/events'. The website header includes the 'Phytopsanitary Resources' logo, a search bar, and links for 'Login' and 'Register'. A navigation menu contains links for 'Home', 'About', 'Databases & Tools', 'Media', 'Training', 'Advocacy', 'Consultants', and 'E-learning'. The main content area is titled 'Events Database' and features a paragraph about contacting IPPC contracting parties, a 'Log in' button, and a link to 'www.ippc.int'. Below this, there are two images: one of a large conference hall and another of a training session. To the right, a calendar for April 2014 is displayed, showing events on the 1st, 2nd, and 3rd. A 'feedback' button is visible on the right side of the page.

Roster of Consultants

<http://www.phytopsanitary.info/consultants>

The screenshot shows a web browser window with the URL <http://www.phytopsanitary.info/consultants>. The page features a navigation bar with links: Home, About, Databases & Tools, Media, Training, Advocacy, Consultants, and E-learning. The main heading is "Consultant Roster". Below this, a text block states: "Find experts in topics related to plant protection and phytosanitary measures." This is followed by a paragraph explaining the roster's purpose and a button labeled "complete the application form and upload CVs". A disclaimer follows, stating that the roster is for capacity development and does not indicate endorsement. Social media sharing buttons for Facebook and Twitter are present. On the right, a "Your Profile" section includes a photo of a group of people and a "Register" button. A "feedback" button is located on the right side of the page.

Consultant Roster

Find experts in topics related to plant protection and phytosanitary measures.

The phytosanitary.info roster of consultants is a web-based database of service providers on phytosanitary issues. It contains the details of individuals and entities with thematic experience and competencies relevant to developing phytosanitary capacity. This includes scientific, managerial and legal expertise. The roster is a continually evolving an publically accessible database. The experts are self-nominated.

Experts in topics related to plant protection, phytosanitary measures and capacity development are invited to [complete the application form and upload CVs](#) so your profile (if approved) can be listed in the roster.

Disclaimer: *Individuals and entities are included in this roster of consultants to consolidate information of possible service providers for phytosanitary capacity development projects. These experts are self-nominated based on the relevance of their education, experience and skills to phytosanitary capacity development. Inclusion in this roster of experts does not indicate any endorsement or support by the Secretariat of the International Plant Protection Convention or its contracting parties.*

feedback

Future plan - Roster of PCE facilitators

- STDF 401 Project “Training of PCE Facilitators”
- Objective: To train phytosanitary experts to serve as PCE facilitators

- Work plan:

- **Outputs** (will be available on the Phytosanitary Resources page) :
 - Roster of PCE facilitators
 - Training materials on PCE facilitation

Promotion of Phytosanitary Resources page

The IPPC encourages the NPPOs, RPPOs and relevant organizations to:

- contribute by uploading the technical resources (in any languages)**
- use and share the resources of the page**
- update the events and projects databases regularly**
- have qualified experts register in the roster of consultants**

Discussion

- **Have you used the training materials and/or Roster of Consultants in your activities and projects?**
 - **Could it work well?**
 - **What would challenges be?**
- **Is there any suggestions for further improvement of the page?**

Thank you
