# COMMISSION ON PHYTOSANITARY MEASURES

|                                                                                                                |
|----------------------------------------------------------------------------------------------------------------|
| <b>Thirteenth Session</b>                                                                                      |
| <b>Rome, 16-20 April 2018</b>                                                                                  |
| <b>Implementation pilot surveillance - Implementation pilot project on<br/>surveillance and emerging pests</b> |
| <b>Document CPM 2018/21 - Revisions to paragraph 21</b>                                                        |
| <b>Agenda item 9.4</b>                                                                                         |
| <b>Prepared by the IPPC Secretariat</b>                                                                        |

1. The CPM is asked to:
  - 1) *Note* the efforts of Australia, The Republic of Korea, EPPO and CIHEAM to champion the three pest initiatives of the programme;
  - 2) *Note* the work of the contracting parties, RPPOs and Secretariat who contributed to the activities outlined in the report;
  - 3) *Thank* Switzerland and The Republic of Korea for their generous financial contributions;
  - 4) *Request* the Implementation and Capacity Development Committee and the Standards Committee to review and evaluate the actions in the work plan that have been completed as well as the implementation pilot on the three priority pests. The review should identify lessons learnt, review the priorities in the work plan, clearly identify directions, outputs and outcomes and revise the plan as necessary, taking into account the experience of the APPPC and the revised standard on surveillance (ISPM 6).
  - 5) *Encourage* TC-RPPOs to complete the establishment of the process for identification, sharing information and providing advice on new emerging pests in their regions.
  - 6) *Encourage* CPs to consider the roles and responsibilities of the IPPC in relation to detection and response to emerging pests in context to the Strategic Framework 2020-2030 during the country consultation.

*This document is printed in limited numbers to minimize the environmental impact of FAO's processes and contribute to climate neutrality. Delegates and observers are kindly requested to bring their copies to meetings and to avoid asking for additional copies. Most FAO meeting documents are available on the Internet at [www.fao.org](http://www.fao.org)*

- 7) *Request* the IPPC Secretariat, during this CPM meeting, to coordinate a meeting of the CPs and FAO to discuss the Africa situation in relation to Fall Army Worm, and identify the needs and activities of the IPPC community that could assist the region in responding to the pest.
- 8) *Encourage* contracting parties to contribute technical and financial resources to the implementation pilot on surveillance and to activities on emerging pests;
- 9) *Provide* technical resources and expertise on emerging pests as well as methods to assess emerging pests to the IPPC Secretariat.
