2. Project Scope and Relevance to the IPPC	
The project contributes to the IPPC Strategic Objectives	(2012 -2019):
Protect sustainable agriculture and enhance	global food security through the prevention of pest spread
Protect the environment, forests and biodiver	sity from plant pests
<ul> <li>Facilitate economic and trade development through the promotion of harmonized scientifically based phytosanitary measures</li> </ul>	
Develop phytosanitary capacity for members	
The scope of the project is to facilitate implementation of the <u>Complementary Action Plan for Assessing and</u> <u>Managing the Pest Threats Associated with Sea Containers</u> endorsed by CPM 12	
3. Project Milestones and Deliverables [e.g. reports, manuals, workshops etc]	
Annual face-to-face meetings	
Guidelines on Sea Container Cleanliness Survey and Inspection	
Sea containers cleanliness factsheet in FAO languages	
	nit (CTU) and by national plant protection organizations

- Monitoring the uptake of Cargo Transport Unit (CTU) code by national plant protection organizations (NPPOs)
- Pilot to assess what donor agency support is required to set up a basis for managing risk of sea containers in developing countries
- Communication toolkit for NPPOs

4. Expected Goals, Outcomes and Outputs of the Project [e.g. linking to ISPMs and/or IPPC
Strategic Framework 2020-2030 priorities that the project will address]
Increased awareness of pest risks of sea container
<ul> <li>Information on pest risks of sea containers and their management provided to contracting parties (CPs), NPPOs, regional plant protection organizations (RPPOs), industry and other international organizations</li> </ul>
<ul> <li>Mechanism established for CPs to report to Commission on Phytosanitary Measures (CPM) on their progress and achievements with the management of SC related risks</li> </ul>
<ul> <li>Advice provided to relevant organizations and industry on how the CTU shipping code or any other instrument could be updated</li> </ul>
<ul> <li>Recommendations provided to the CPM 16 (2021) on future steps to manage pest risks of sea containers.</li> </ul>
Contributes to IPPC Strategic Framework 2020-2030, Strategic objective B. Protect the Environment from the Impacts of Plant Pests, B2: Contracting parties have mechanisms in place to control the spread of environmental contaminating pests on non-plant trade pathways, e.g. invasive ants on vehicles and machinery, or gypsy moth egg masses on sea containers and vessels.
