COMMISSION ON PHYTOSANITARY MEASURES

Fourteenth Session

Rome, 1-5 April 2019

Task Force on Topics and 2018 Call for Topics: Standards and Implementation - List of Implementation and Capacity Development Topics

Agenda item 9.1

Prepared by the IPPC Secretariat

1. During CPM-13 (2018), it was discussed that the Implementation and Capacity Development Committee (IC) should focus on reviewing their capacity development framework to identify priority actions and develop a work programme reflecting the needs of Contracting Parties.

2. The IPPC Secretariat have been undertaking several Implementation and Capacity Development (ICD) activities with the IC (formerly CDC) (see Report of the IC, Agenda item 11.1), however a list of ICD topics had not been compiled and there is no formal process to be followed. The IPPC Standard Setting Procedure outlines how topics are adopted by the Commission on Phytosanitary Measures (CPM) and then added to the List of Topics for IPPC Standards¹. For transparency, the Secretariat gathered ICD topics that were being worked on and presented them to the IC in May 2018 as the List of ICD topics². The IC agreed³ that the list was a reflection of topics being worked on and assigned priorities.

3. In the meantime, the Task Force on Topics (TFT) reviewed topics that were submitted through the 2018 Call for Topics: Standards and Implementation and developed their recommendation to the CPM proposing additional ICD topics and topics for standards (see Agenda item 9.1).
4. The Secretariat felt it would be useful to present the current list of ICD topics agreed by the IC to the CPM for transparency and the TFT agreed, noting that ICD topics adopted by the CPM-14 (2019) under agenda item 9.1 should be added to this list.
5. The CPM is invited to:
 - 1) *note* the List of Implementation and Capacity Development (ICD) topics as presented in Attachment 1 to this paper.
