

National Reporting Obligations: needs from Regions

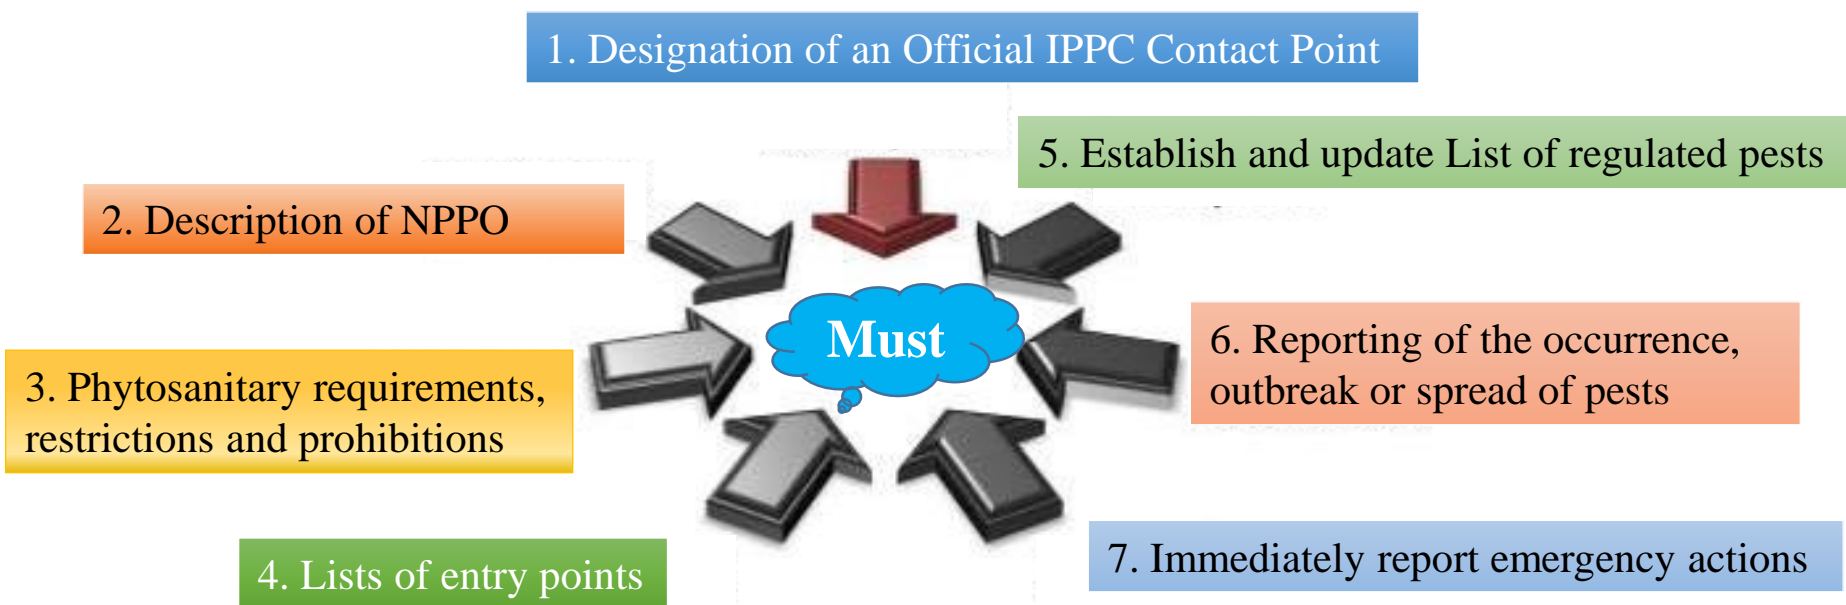

**IPPC Secretariat
2019 IPPC Regional Workshop**

1. General review of NROs

What are the public NROs

Any examples for these 7 Public Obligations?

1. General review of NROs

What are the Bilateral NROs

1. Description of organizational arrangements of plant protection

2. Rationale for phytosanitary requirements, restrictions and prohibitions

3. Reporting of non-compliance with phytosanitary certification

4. Reporting the result of investigation regarding significant instances of non-compliance with phytosanitary certification

5. Develop and maintain information on the pest status and make such information available

6. Providing the technical and biological information necessary for pest risk analysis.

Bilateral

The guide to National Reporting Obligations

For IPPC Contact Points and IPP editors

National Reporting Obligations: Overview

In total there are 13 National Reporting Obligations:

- Designation of an Official IPPC Contact Point;
- Description of the NPPC;
- Phytosanitary requirements, restrictions and prohibitions;
- List of entry points;
- List of regulated pests;
- Pest reports;
- Organizational arrangements for plant protection;
- Rationale for phytosanitary requirements, restrictions and prohibitions;
- Significant instances of non-compliance with phytosanitary certification;
- The result of investigation regarding significant instances of non-compliance with phytosanitary certification;
- Information on the pest status;
- Emergency action;
- Technical and biological information necessary for pest risk analysis.

NROs by a method of reporting

As regards a method of their communication there are seven public NROs which should be reported via the International Phytosanitary Portal (IPP - <https://www.ippc.int>):

- Designation of an Official IPPC Contact Point;
- Description of the NPPC;
- Phytosanitary requirements, restrictions and prohibitions;
- List of entry points;
- List of regulated pests;
- Pest reports;
- Emergency action.

There are also six bilateral National Reporting Obligations which should be communicated directly between Contracting Parties:

- Organizational arrangements for plant protection;
- Rationale for phytosanitary requirements, restrictions and prohibitions;
- Significant instances of non-compliance with phytosanitary certification;
- The result of investigation regarding significant instances of non-compliance with phytosanitary certification;
- Information on the pest status;
- Technical and biological information necessary for pest risk analysis.

2. Statistics of reports in Africa region for the past 5 years

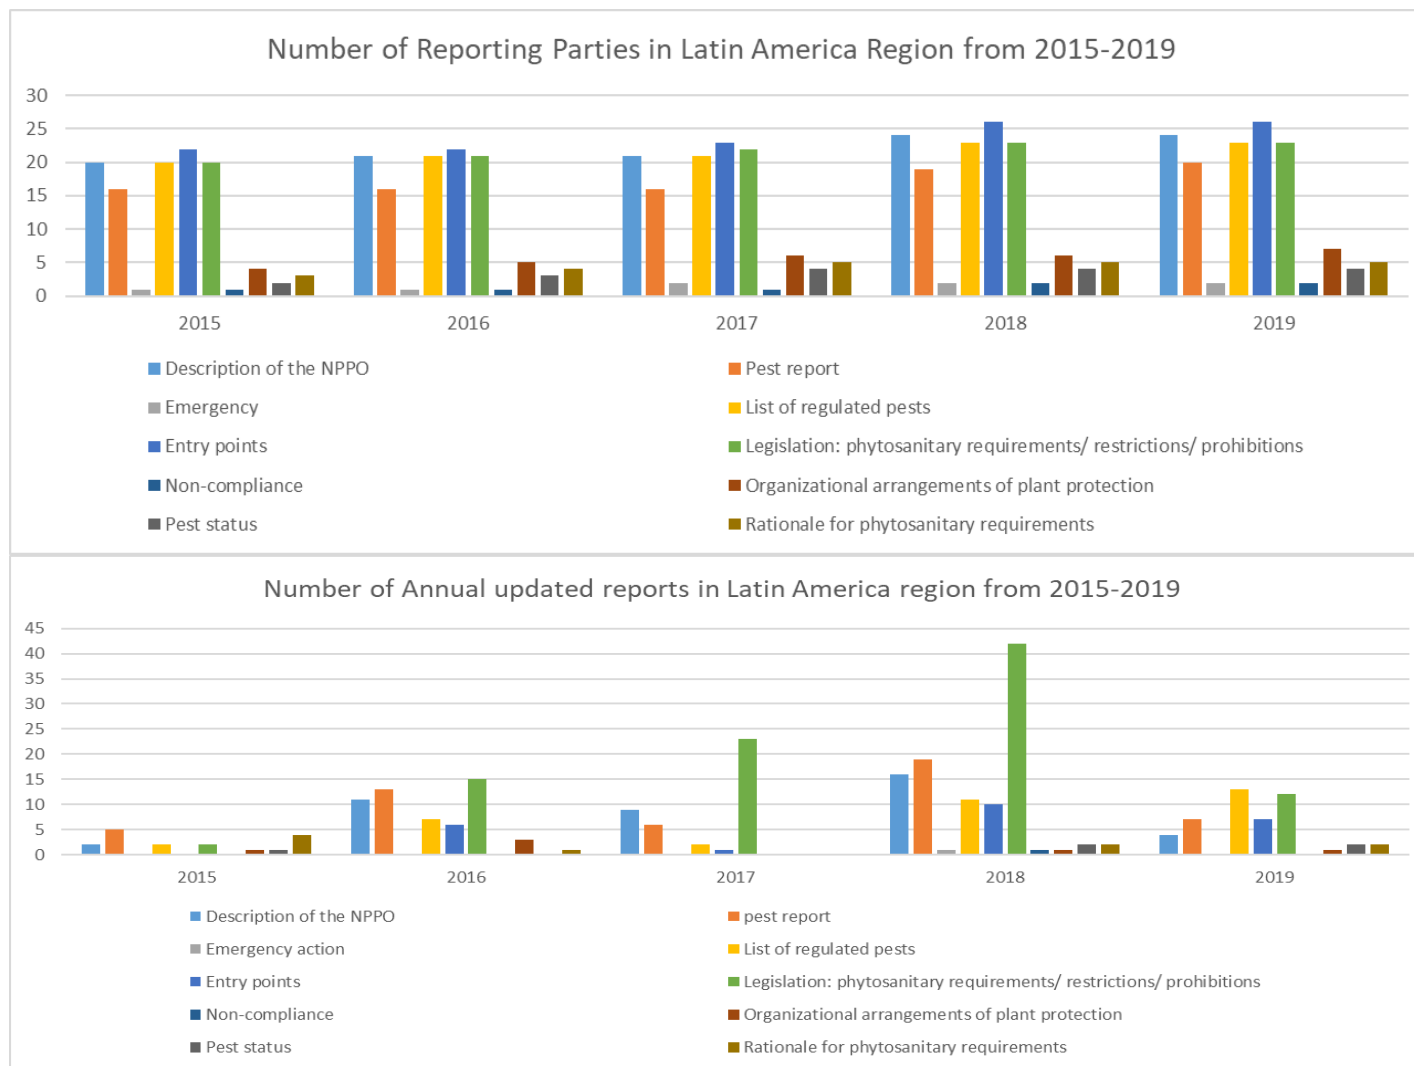

2. Statistics of reports in Asia region for the past 5 years

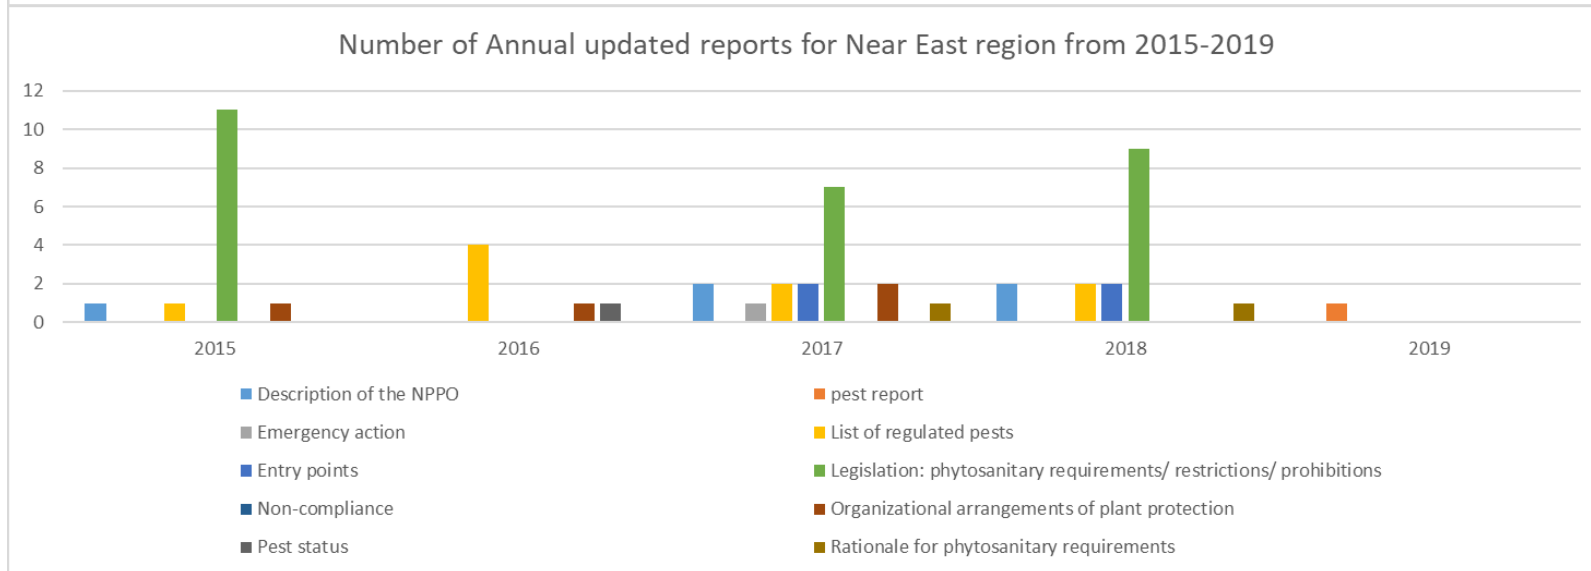

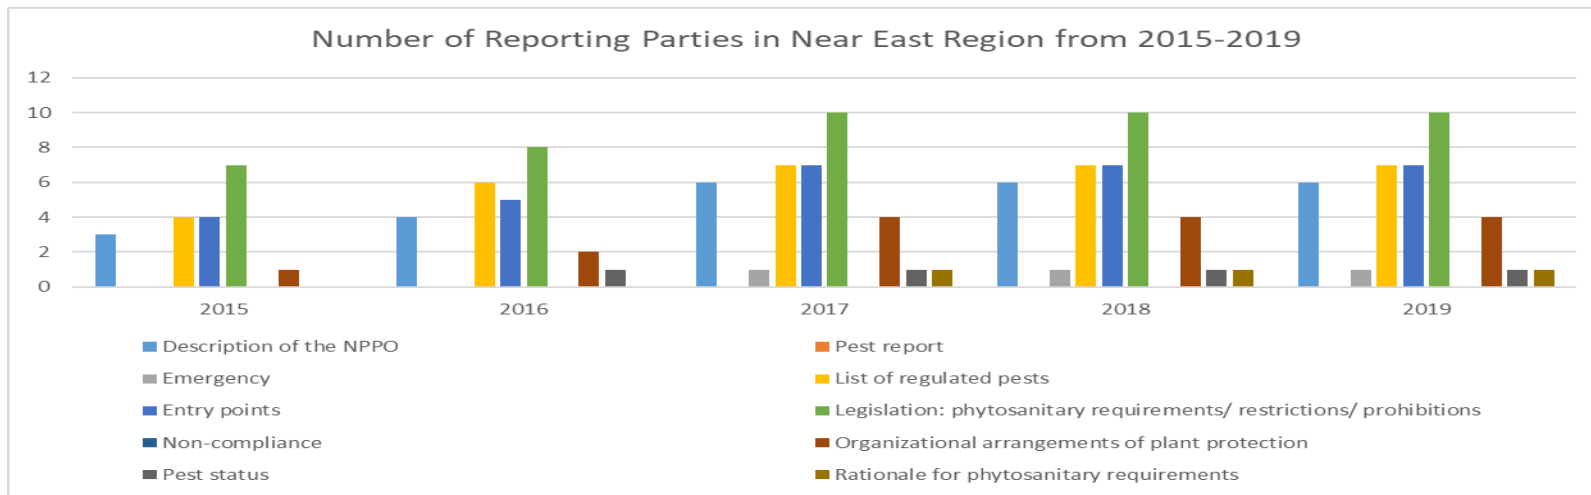

2. Statistics of reports in Europe region for the past 5 years

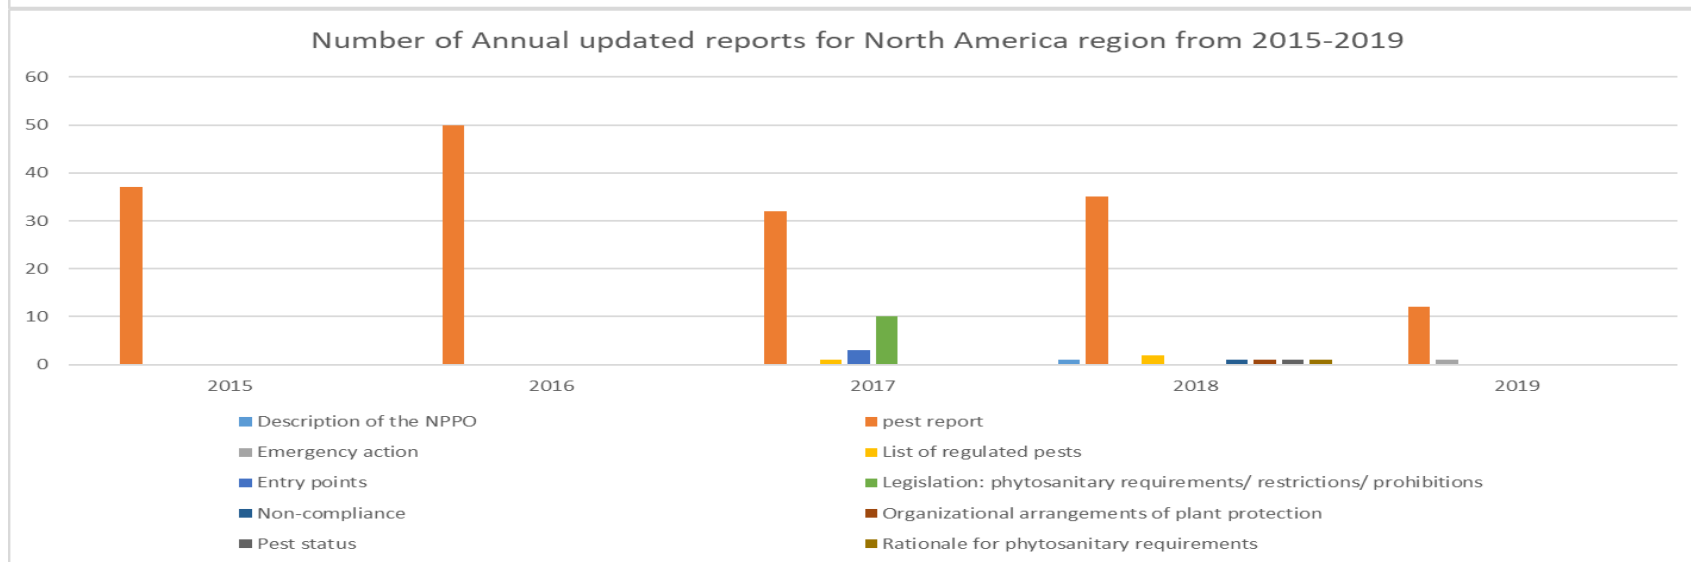

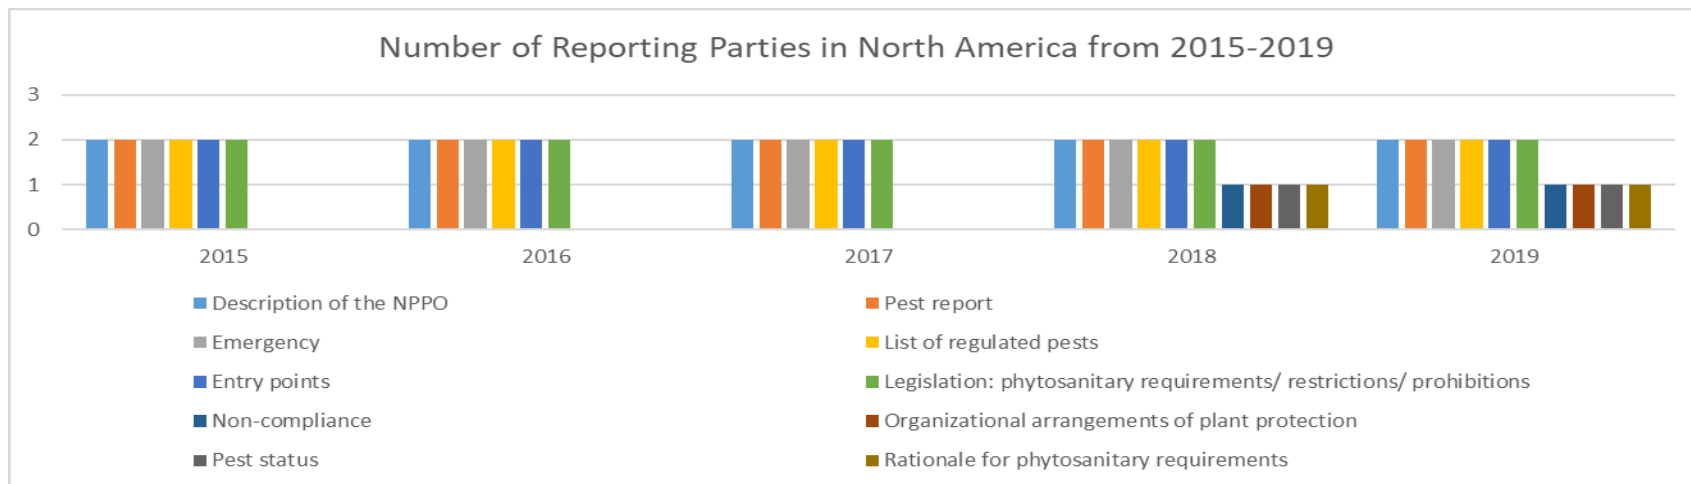

2. Statistics of reports in Latin America region for the past 5 years

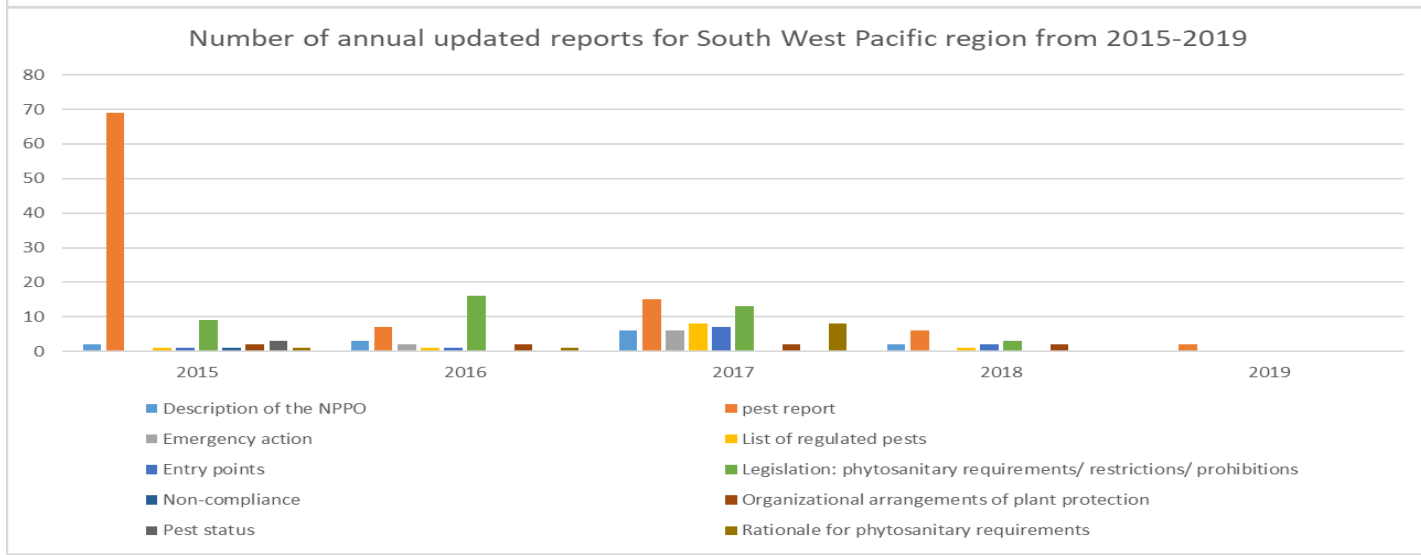

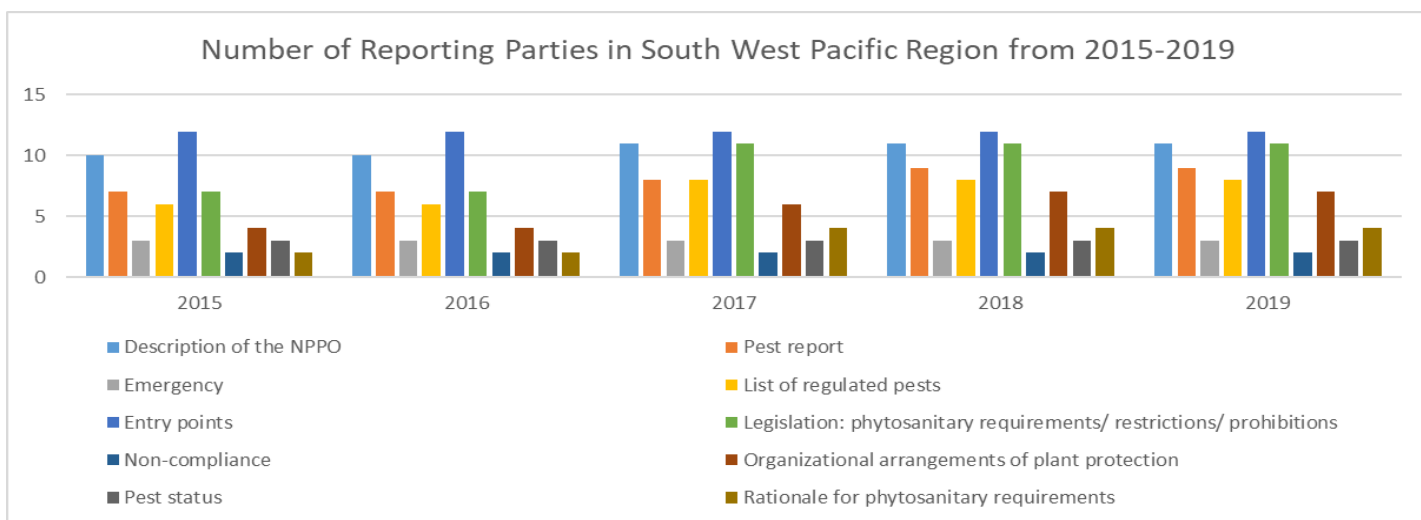

2. Statistics of reports in Near East region for the past 5 years

2. Statistics of reports in North America region for the past 5 years

2. Statistics of reports in South West Pacific region for the past 5 years

3. Pest report

When did you or your OCP submitted pest report

Pest report

The occurrence, outbreak or spread of pests that may be of immediate or potential danger should be reported via the IPP once they happen.

What should be reported under Pest Report

A pest report should contain important information that allows other countries to adjust as necessary their phytosanitary import requirements and to take actions taking into account any changes in pest risk.

Ref. ISPM-17: Pest reporting and
NRO Guide: Chapter 2.5

4. Emergency action

What should be reported under Emergency action?

“Emergency action”: a prompt phytosanitary action undertaken in a new or unexpected phytosanitary situation.

“Phytosanitary action”: an official operation, such as inspection, testing, surveillance or treatment, undertaken to implement phytosanitary regulations or procedures.

5. Exercise

When did your NPPO updated its information on the IPP? (the latest one)

Exercise to check NPPOs profile

Group discussion exercise

What are the benefits, for your country, in reporting to the IPPC?

6. Challenges

What challenges are you facing to carry out IPPC NROs?

IPPC Reporting system

Internal Rules/Procedures

Lack of data to report at national level

7. NRO survey

- ❖ National Reporting Obligations (NROs) are key obligations of the contracting parties of the International Plant Protection Convention (IPPC) to achieve the objectives of the Convention. For the sake of improving the NRO programme, the IPPC Secretariat launches this survey to collect comments and suggestions to improve the NRO and provide more effective support to contracting parties to fulfill their obligations
- ❖ IPPC Contact points of Contracting parties, RPPO, SC,IC and Bureau members can attend the Survey
- ❖ Link to survey: <https://www.surveymonkey.com/r/Z92BBR3>
- ❖ The deadline of the NRO survey has been extended to **15 October 2019**.

2.

* 1. What kind of features of the IPPC NRO programme do you use the most?
You may choose more than one option and give the priority of all your choice in the box below

- A. Contact point information page (<https://www.ippc.int/en/countries/all-list-countries/>)
- B. Country pest reports (<https://www.ippc.int/en/countries/all-pest-report/>)
- C. Frequently Asked Questions (<https://www.ippc.int/en/faq/>)
- D. NRO guide (<https://www.ippc.int/en/publications/80405/>)
- E. NRO newsletters (<https://www.ippc.int/en/core-activities/information-exchange/nro/>)
- F. NRO thematic years (<https://www.ippc.int/en/core-activities/information-exchange/nro/>)
- G. Other (please specify)
- Comments (mandatory)

Write the comments as many as you can in the comment box

8. NRO materials and statistics

- **NRO Guide:** <https://www.ippc.int/en/publications/80405/>
- **Factsheets on each NRO:** <https://www.ippc.int/en/core-activities/information-exchange/nro/>
- **Leaflets (benefits, consequences, contact points, networking):** <https://www.ippc.int/en/core-activities/information-exchange/nro/>
- **Tables (lists on NROs)**
- **NROs UPDATE (educational newsletter)**
- **Statistics (summaries for CPMs and IPP live statistics)**
- **Reports lists**
