

## IC PROJECT REPORTING TEMPLATE AS PART OF THE STRATEGY AND PROCESS ON HOW THE IC REVIEWS AND ANALYSES ICD PROJECTS

**Project Title:** Rolling out Systems Approach globally - sharing tools for enhanced application of Systems Approach and market negotiation on plant pest risk

**Reporter:** Ketevan Lomsadze

**IC Member in charge:** Sally Jennings

**Project Code (if applicable):** MTF/INT/336/STF STDF/PG/503

**Submitted Date:** 18 Sep. 2019

### IC PROJECT REPORTING TEMPLATE

To be filled in by the submitter	<b>1. Project Profile</b>	
	<b>Recipient Region(s)/ Countries</b>	Developing countries or National Plant Protection Organizations (NPPOs), Regional Plant Protection Organizations (RPPOs) and regional plant health entities wishing to strengthen pest risk management capacities of developing countries to improve market access in specific high-priority trade cases.
	<b>Donor/ Resource Partner</b>	Standard and Trade Development Facility (STDF)
	<b>IC Representative (if applicable)</b>	IC stands as the Steering Committee of the project
	<b>IPPC Secretariat Representation (if applicable)</b>	Ms Ketevan Lomsadze, IPPC Secretariat Implementation Facilitation Officer, International Plant Protection Convention (IPPC), UN-FAO, Italy
	<b>RPPO Representation (if applicable)</b>	Not applicable
	<b>Collaboration / Participating Organizations</b>	Centre for Environmental Policy (CEP), Imperial College London (ICL)
	<b>Project Budget (detailed funds and/or in-kind)</b>	Project value: US\$ 771,186 Committed in kind inputs from CEP, ICL US\$ 89,642 Committed in kind inputs from IPPC US\$ 37,578 STDF contribution: US\$ 568,966
	<b>Project Timing</b>	2018-07 – 2021-06
	<b>2. Project Scope and Relevance to the IPPC and main outputs (max 200 words)</b>	
The objective of the project is to increase opportunities for exports of plant products from developing countries and responsible importing, through more options for managing pest risk. That is to be achieved by enhancing competency and confidence in applying Systems Approach to specific export cases through the use of Beyond Compliance Tools and pest risk management decision support tools.		
<b>3. Project Supporting Materials [e.g. hyperlinks]</b>		
Description of the project is available on the STDF site <a href="#">Rolling out Systems Approach Globally</a> . News on the training delivered can be found at: <a href="https://www.ippc.int/fr/news/the-ippc-secretariat-announces-the-delivery-of-the-training-for-future-facilitators-of-the-beyond-compliance-tools/">https://www.ippc.int/fr/news/the-ippc-secretariat-announces-the-delivery-of-the-training-for-future-facilitators-of-the-beyond-compliance-tools/</a>		

To be filled in by the assigned IC member and revised by the IC	<b>4. List project technical resources (i.e. guides, training materials, tools) that could be useful and used by other stakeholders</b>
	<b>Production Chain</b> – Graphic representation of activities to be used in a Systems Approach organised by stage (time and place), objective and type of measures. <b>Decision support for Systems Approach (DSSA)</b> – A framework for ranking measure performance over a range of indicators, with the possibility of showing a range of opinion.
	<b>5. Provide a list of project experts that could be recommended to other stakeholders and describe why</b>
	When there are validated Facilitators, these will be listed as resource people for supporting stakeholder meetings or similar. There is no one to recommend at this time.
	<b>6. Describe successes and challenges that could be promoted for the benefit of other stakeholders</b>
	The training was organised by learning objectives with materials associated with each, which succeeded because we did not assume a common knowledge. The camaraderie of the Beyond Compliance facilitators in training was high and was supported by their experience of the pre-training calls. Challenges for training and to some degree cases include the range of languages and some weakness in English, which was the stated language for carrying out the work. This can be addressed in part when we are through validation and have Facilitators with different language proficiencies.
	<b>7. List targeted beneficiaries [i.e. regions, countries, RPPOs, NPPOs and other institutions]</b>
	This is a global project focusing on Developing Country NPPOs, with benefits expected to extend to the production and trade sectors.
<b>8. List actions to be taken and describe IPPC network involvement [i.e. the technical resources to be reviewed by the IC; the experts curriculum to be reviewed by the IC; the successes and challenges of the project to be reviewed by the IC, possible project collaboration with the relevant IPPC governing bodies, subsidiary bodies or other committees].</b>	
The key outputs have been shared in a number of talks, including regional meetings in the Caribbean and Africa.	
To be filled in by the assigned IC member and revised by the IC once outputs have	<b>9. Communication plan: on the basis of answers to questions 7 and 8, develop a detailed and targeted communication plan [indicate communication actions to be undertaken and stakeholders to be targeted and means for doing so].</b>
