# FAO/IPPC TECHNICAL WORKING GROUP

## Fall Armyworm Quarantine and Phytosanitary Measures

- **FAW Prevention**

Supporting NEPPO, EPPO and PPPO regions and countries to prevent FAW movement through regulated trade pathways and natural pathways through developing, implementing and promoting globally harmonized quarantine and phytosanitary measures.

- **FAW Preparedness**

Supporting NEPPO, EPPO and PPPO regions and countries to prepare for FAW incursions and outbreaks through developing, implementing and promoting globally harmonised contingency and response resources and training materials.

- **FAW Response**

Supporting NEPPO, EPPO and PPPO regions and countries to respond and manage initial FAW incursions and outbreaks through developing, implementing and promoting globally harmonised FAW surveillance, management and engagement resources and training materials.
