Animal

- Created in 1924 as the Office International des épizooties (OIE) to fight animal disease
- The OIE is the intergovernmental organisation that aims to improve animal health and protect public health worldwide
- A technical and science - based international organisation

### Codes

- Control and eradication of disease
- Safeguard of International trade

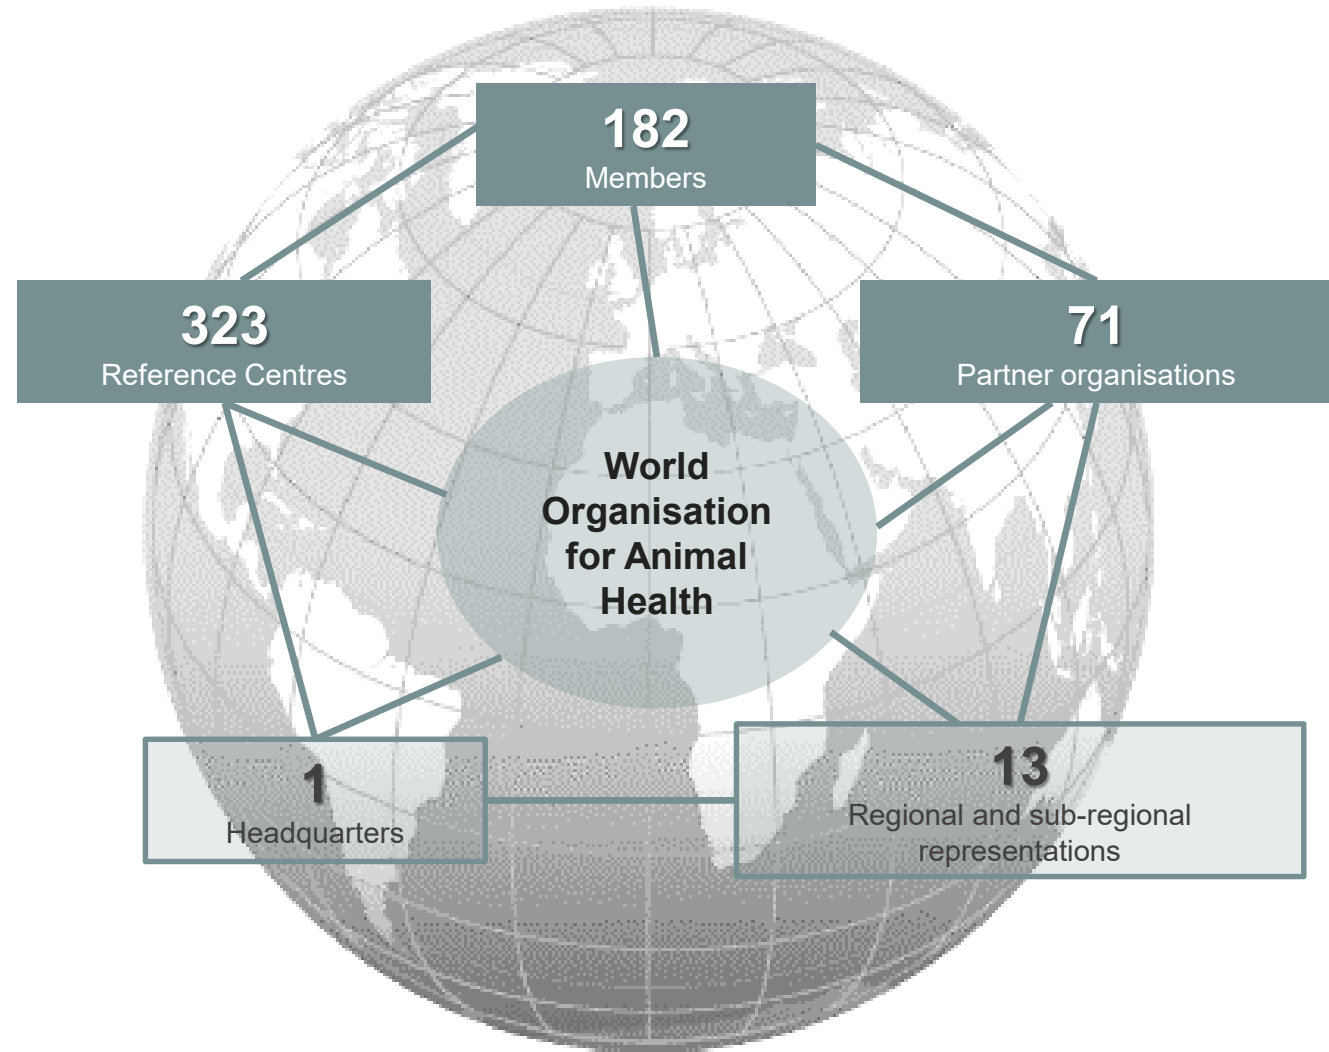

### Manuals

- Diagnostic tests
- Vaccine production

Terrestrial & aquatic animals

# The OIE structure

- Transparency in the global animal disease situation
- Publishing health standards for international trade in animals and animal products

# OIE OBSERVATORY

## MAKING SENSE OF THE EVIDENCE TO ADDRESS MEMBER'S NEEDS

### Monitoring the implementation of standards:

- ❖ Collection of information related to the implementation of OIE standards from existing data sources (inside/outside OIE)
- ❖ Identifying gaps in the implementation of OIE standards and understanding the challenges
- ❖ Dissemination of information in an aggregated format to maintain confidentiality

Identification of capacity building needs and solutions to support Members

Enhancement of the OIE standard setting process

Identify areas and processes that the OIE can improve internally

Promoting the benefits of implementation of OIE standards

Implementation of OIE standards is essential for improving animal health, animal welfare and veterinary public health

OIE Observatory role

Members' role

# Steps towards an operational OIE Observatory

2018 - 2019

DESIGN

86<sup>th</sup> GS  
Resolution n°36

The Observatory is financed by  
voluntary contributions of OIE  
Members

2020 - 2021

TESTING

ROADMAP

Lessons learnt from pilot phase:

- Sources of information
- Indicators to be used
- Governance structure
- Manage expectations

2022 - 2025

IMPLEMENTATION

Continue testing  
Improve  
Nonstop learning

Next steps:

- ▶ **Implementation review report:** issued on an annual basis, will provide a high-level summary regarding the implementation of OIE Standards
- ▶ **Thematic analysis:** published on a pluriannual basis, will provide a more comprehensive and focused analysis on priority topics.

## In summary...

- ✓ The OIE Observatory is still in its early stages - piloting phase
- ✓ Using existing data with their limitations (confidentiality, quality)
- ✓ Aiming to improve the understanding of Members' needs, in order to identify areas where the OIE can act upon
- ✓ Identify areas that can be adjusted internally (methods/processes/services)

THANK  
YOU
