

## RECOMMENDATIONS TO SET A GLOBAL PEST OUTBREAK ALERT AND RESPONSE SYSTEM

Mireille MARCOTTE, Chair of the CPM Focus Group on Pest Outbreak Alert and Response Systems

### Background

1

During CPM-14 (2019), the concept of emerging pests and emergency issues was discussed, and several countries expressed their concern regarding the situation with *Spodoptera frugiperda*.

2

The concept of emerging pests was aligned with the development agenda item listed in the IPPC Strategic Framework (2020-2030) entitled "Strengthening Pest Outbreak Alert and Response System"

3

The scope would be <u>limited to species qualifying as quarantine or</u> potential quarantine pests.

4

A Focus Group was set and met virtually every month from January to September 2021.

### **Outline:**

- 1. POARS overarching components
- Considerations related to relations with other bodies and stakeholders
- 3. Considerations related to the information systems and tools available through the POARS
- 4. Considerations on definitions

- 5. Considerations related to the governance of the POARS
- Budget to conduct the POARS activities within the IPPC Secretariat

### 1. POARS overarching components

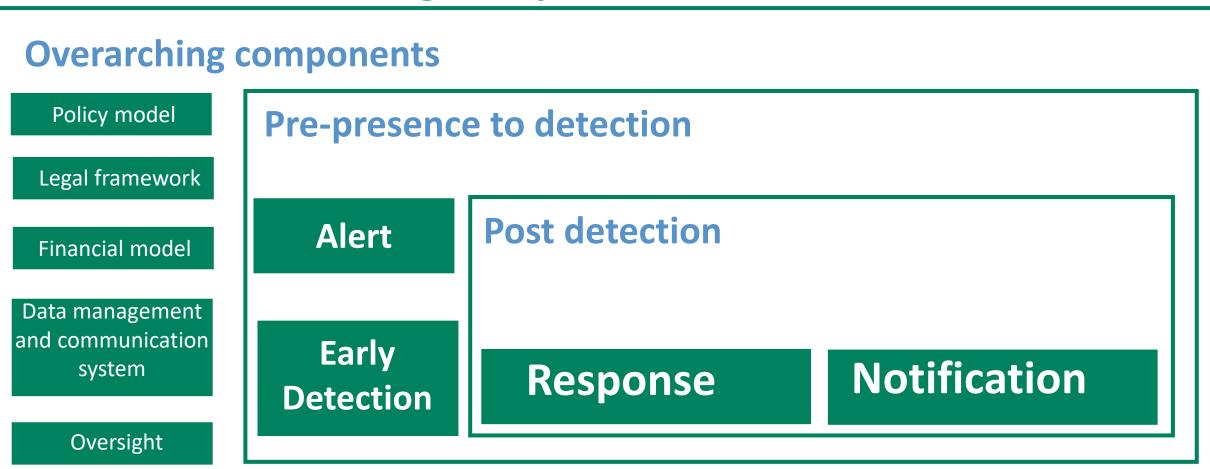

Figure 1. Basic components of an alert and response system

3. Considerations related to relations with other bodies and stakeholders

#### GLOBAL PEST OUTBREAK ALERT AND RESPONSE SYSTEM FRAMEWORK

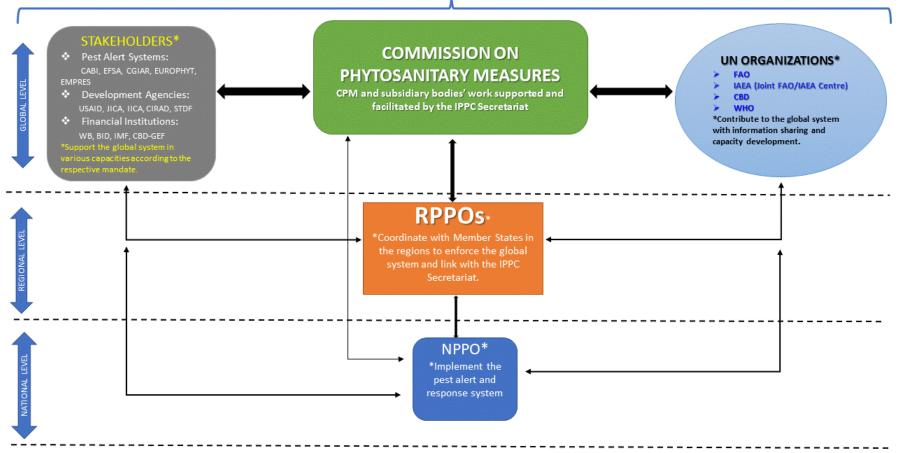

Figure 2. Proposed framework for the Pest Outbreak Alert and Response System (POARS).

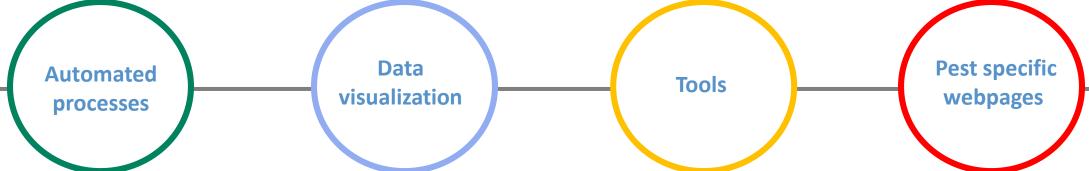

## 3. Considerations related to the information systems and tools available through the POARS

A dedicated webpage should be set up and connections with links to RPPOs' websites. The webpage should

provide access to a toolbox to include:

to scan media and scientific sources for information on emerging pests.

of the geographic distribution of emerging pests, and their progressive spread

for the collection and sharing of surveillance data for emerging pests and facilitate access more readily to expertise on diagnostics, surveillance and eradication.

Simple, Timely (up to date) and Accurate pest specific pages on emerging pests.

POARS must include capacity development for NPPOs and pest reports need to be submitted in a timely and transparent manner. The information system must be legally supported (e.g., ensure no liabilities issues for the IPPC Secretariat).

#### 4. Definitions

The FG advises the Standard Committee to request the Technical Panel on the Glossary (TPG) to consider the term 'emerging pest' and a definition to be included in ISPM 5 (Glossary of Phytosanitary Terms):

"A pest qualifying as a quarantine pest for which the pest risk or impact for an area has recently increased substantially, due to changes in pest-intrinsic factors, hosts, pathways or environment related factors with potential damage reaching epidemic proportions".

# 5. Considerations related to the governance of the POARS

- The FG considered whether POARS should be established as part of the IC, or whether a new subsidiary body should be established. The FG recommends that a new subsidiary body is established, provisionally named the Pest Outbreak Alert and Response Systems Committee (POARSC).
- As a start, a POARS Steering Group would be set for three years.

#### The POARS Committee should:

- be established to provide general direction to the POARS;
- ensure overall coordination between stakeholders' organizations globally; and,
- drive resource mobilization.

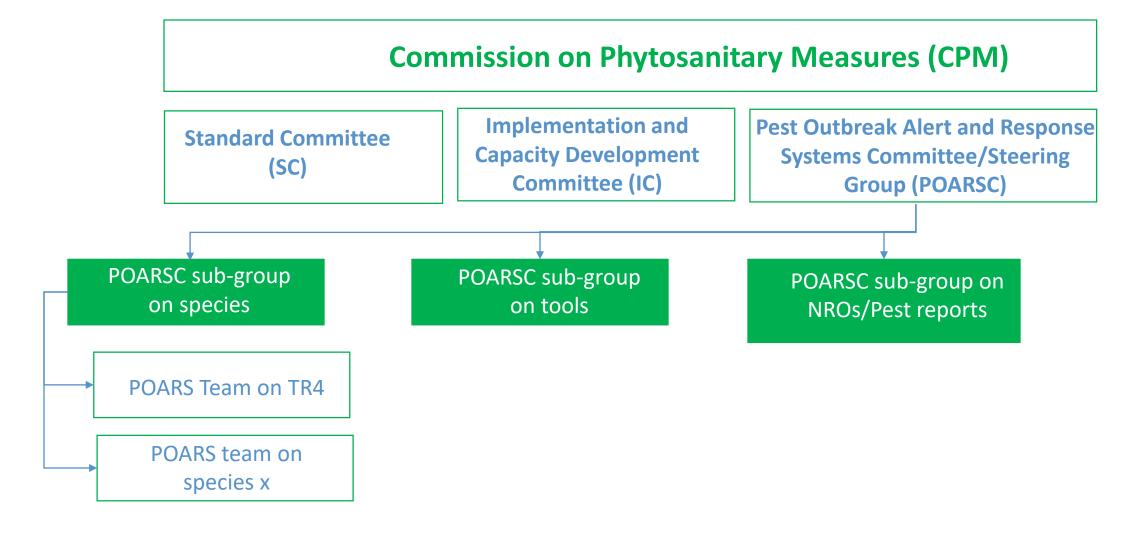

Figure 3: Organigramme of the POARS Committee as a subsidiary body under the CPM

## 6. Budget to conduct the POARS activities within the IPPC Secretariat

To have a continuous operating capacity, regular budget funds would have to be made available. As a fallback alternative, extrabudgetary funds would be mobilized for this activity through projects and voluntary contributions.

<u>In a first phase</u>, the human resources dedicated to POARS could be as follows:

One part time manager + One scientific officer + One part time IT developer (1) part time administrative person (1/4)

- **325 k/year for** the staff, including equipment (estimated).
  - **100 k/year** for the procurement of external services (translation, IT support and experts meetings) (estimated).

# Thank you
