e-Phyto		
	<p>Dominique MENON ePhyto Programme Officer (in-kind contribution: France)</p> <p>Based in: Rome (HQ) Tel: 52899</p> <p>E-mail: Dominique.Menon@fao.org</p>	<p>Dominique supports implementation of the IPPC ePhyto Solution, including maintaining and improving the ePhyto tools.</p> <p>A civil servant of the French Ministry of Agriculture and Food Sovereignty, Dominique has over 30 years of national and international experience in plant health issues such as agricultural training and capacity building, pest control policies and regulation, project management, locust contingency planning and phytosanitary certification for export including e-certification.</p> <p>Dominique has a master's degree in agricultural techniques (Ingénieur des techniques agricoles) and a post graduate diploma in agronomy (Ingénieur d'agronomie), both from the "Institut Agro Dijon" in France.</p> <p>Dominique speaks English and French.</p>
Emerging Pests		
	<p>Camilo BELTRAN MONTOYA Agricultural Officer P3</p> <p>Based in: Rome (HQ)</p> <p>E-mail: Camilo.BeltranMontoya@fao.org</p>	<p>Camilo Beltrán Montoya is a Colombian engineer in Agriculture and holds a master's degree in plant protection.</p> <p>Camillo is currently responsible for coordinating the Steering Group on Pest Outbreak and Alert Response Systems. In his previous assignments, he coordinated the phytosanitary component of a joint project between IPPC and the FAO food safety unit to deliver Phytosanitary Capacity Evaluations (PCEs) in nine African countries. He has facilitated PCEs in a few countries, provided technical support for IPPC Secretariat activities related to Fusarium TR4 and supported the coordination of the FAO/IPPCC Technical Working group for Spodoptera frugiperda.</p> <p>Camilo has prior experience as a plant health international officer at the General Secretariat of the Andean Community, which is a regional plant protection organization. He specialized in plant health, pesticide registration, and regional initiatives targeting pests such as citrus Huanglongbing and Fusarium TR4. Camilo has also worked at the NPPO of Colombia, where he supported the establishment and certification of the phytosanitary status and regulated pests list.</p> <p>Camilo is fluent in English and Spanish</p>

	<p>Preet Kamal PARMAR International Phytosanitary Specialist</p> <p>Based in: Rome (HQ) E-mail: Preet.Parmar@fao.org</p>	<p>Preet leads the activities on the Common Market for Eastern and Southern Africa (COMESA) trade facilitation project for Fusarium TR4 prevention.</p> <p>Prior to joining the IPPC Secretariat, Preet worked for the New Zealand National Plant Protection Organization (NPPO) for six years. She was involved in developing phytosanitary requirements following International Standards for Phytosanitary Measures (ISPMs) to manage phytosanitary risks associated with importing fresh fruits and vegetables into New Zealand. She was also part of a team comprising representatives from the New Zealand NPPO and the New Zealand Ministry of Foreign Affairs and Trade. The team worked on improving and enhancing phytosanitary certification systems in selected Pacific Island countries. More recently, she worked as a Senior Adviser for the response group in the NPPO, responding to pest detections in New Zealand.</p> <p>Preet is a New Zealand national. She holds a bachelor's degree in Biological Sciences and master's degree in Biosecurity and Conservation from the University of Auckland, New Zealand.</p>
Phytosanitary Capacity Evaluation		
	<p>Fitzroy WHITE Phytosanitary Specialist (part-time)</p> <p>Based in: Jamaica E-mail: Fitzroy.White@fao.org</p>	<p>Fitzroy leads the implementation of activities related to Phytosanitary Capacity Evaluations (PCE) and was the PCE facilitator for Barbados, St. Lucia, Fiji, Mongolia and Nepal. He supports the Implementation and Capacity Development Committee (IC) team on PCE and coordinates reviewing of PCE modules and improvement of the PCE tools.</p> <p>Fitzroy has a wealth of experience in plant health, from 27 years working in the Plant Quarantine Branch of the Ministry of Agriculture in Jamaica. He has also served on various national and international committees on plant health.</p> <p>He has a post graduate diploma in managing agriculture and rural development from the University of the West Indies and from the College of Agriculture in Portland, Jamaica, and an Associates of Science degree in agriculture.</p> <p>Fitzroy is currently completing a master's degree in Tropical Crop Protection from the University of the West Indies.</p>
