IPPC Global Workshop on Systems Approaches

7.7. Prepared for the IPPC Regional Workshops 2025

Why Systems Approaches?

- Complex trade pathways require integrated, adaptive solutions.
- Risk-based and least trade-restrictive approach.
- Supports modern production and trade practices.
- Leverages new technologies to manage phytosanitary risk.
- ISPM-14: The use of integrated measures in a systems approach for pest risk management

REGIONAL
WORKSHOP**

SAVE THE DATE!

The workshop will take place:

- **1 to 5 December 2025, in Santiago, Chile.**
- Confirmed by the CPM Bureau in April and supported by COSAVE.

Organized by IPPC and supported by the Chilean NPPO and regional partners such as IICA, COSAVE, and IPPC contracting parties such as Australia, Canada, and USA.

Venue proposals under review, estimated for 100 participants.

Call for Participation to be open in September – **STAY TUNED!**

Call for Participants – Early September 2025

The official Call for Participants is expected to be launched in **September 2025**.

Participation will be open to NPPOs, RPPOs, and key stakeholders involved in systems approaches.

Up to 100 participants are expected to attend.

- Participants will: Engage in technical sessions, learn how IPPC standards are used, share national experiences, contribute to programme discussions, and participate in the field visit

The call will include:

- Application procedures and selection criteria
- Workshop details (venue, dates, agenda highlights)
- Information on financial support (where applicable)
- The IPPC Secretariat will circulate the call through the IPP portal and direct outreach.

Prepare to Contribute – Engage with the Global Dialogue on Systems Approaches

Prepare your success story on systems approaches for submission.

The Call for Participants opens in September 2025.

Showcase your experience, highlight innovations, and contribute to
global dialogue.

Strengthen collaboration and help shape the future of phytosanitary
risk management.
