La présente notice **ne traite pas** les questions relevant de la législation douanière, des contingents tarifaires, de la convention CITES et de l'importation par des particuliers dans le cadre du trafic voyageur ! Prière de s'adresser pour ce faire respectivement à l'Administration fédérale des douanes ([www.douane.ch](http://www.douane.ch)), à l'Office fédéral de la sécurité alimentaire et des affaires vétérinaires ([www.cites.ch](http://www.cites.ch)) ou à l'Office fédéral de l'agriculture, Secteur Importations et exportations ([www.blw.admin.ch](http://www.blw.admin.ch) > Thèmes > Importations et exportations). Les dispositions visées dans l'ordonnance sur la protection des végétaux sont réservées.

## 1 Bases légales

- Ordonnance sur la protection des végétaux (**OPV** / [www.admin.ch/ch/f/rs/c916\\_20.html](http://www.admin.ch/ch/f/rs/c916_20.html))
- Ordonnance de l'OFAG sur les mesures phytosanitaires à caractère temporaire (**OMPT** / [www.admin.ch/ch/f/rs/c916\\_202\\_1.html](http://www.admin.ch/ch/f/rs/c916_202_1.html))
- Ordonnance du DFE sur les végétaux interdits ([www.admin.ch/ch/f/rs/c916\\_205\\_1.html](http://www.admin.ch/ch/f/rs/c916_205_1.html))
- Décisions de portée générale (mesures d'urgence)  
(<http://www.blw.admin.ch/themen/00012/01153/01693/index.html?lang=fr>)

## 2 Centre de contact et compétences

### Compétences

- Plantes cultivées agricoles et produits qui en sont issus OFAG
- Plantes ornementales OFAG
- Végétaux forestiers et produits qui en sont issus OFEV
- Terre et milieu de culture OFAG
- Organismes vivants OFAG

OFAG : Office fédéral de l'agriculture

OFEV : Office fédéral de l'environnement

## 3 Dispositions phytosanitaires à l'importation

Les marchandises qui sont potentiellement porteuses d'organismes nuisibles particulièrement dangereux sont soumises à l'importation, aux prescriptions phytosanitaires. Celles-ci sont en fonction du risque d'introduction d'organismes nuisibles particulièrement dangereux représentés de la marchandise à importer. Ci-après, les termes les plus importants sont explicités.

### Interdiction d'importer (V)

L'interdiction d'importer est appliquée aux marchandises qui présentent un risque phytosanitaire accru. Les marchandises interdites d'importation sont signalées dans l'annexe 1 avec un V.

### Permis d'importation (B)

Les marchandises de l'annexe 1 suivies de la lettre **B**, dont l'importation n'est autorisée que sous certaines conditions, nécessitent l'octroi d'un permis. Les demandes de permis doivent également être adressées au centre de contact de l'OFAG.

*Attention* : la présente notice n'indique pas si une marchandise requiert un permis d'importation autre que celui exigé pour des motifs autres que phytosanitaires !

### Certificats phytosanitaires (Z, Zi, D)

Les marchandises pour lesquelles un certificat phytosanitaire (**Z**), le cas échéant, un certificat avec une déclaration supplémentaire (**Zi...**) et/ou des indications relatives à un traitement de désinfection ou de désinfection (**D**), est requis, sont suivies de la/des lettre(s) correspondante(s) à l'annexe 1. En principe seules les marchandises en provenance de pays autres que ceux de l'UE (= pays tiers) sont concernées.

Lors de l'importation en Suisse, les marchandises nécessitant un permis et/ou un certificat phytosanitaire sont soumises au contrôle par le Service phytosanitaire fédéral (SPF). Les envois correspondants doivent être annoncés au SPF au plus tard la veille de leur arrivée en Suisse. Pour les envois qui ne sont pas annoncés à temps, il faut s'attendre à des délais lors du dédouanement phytosanitaire.

Les marchandises pour lesquelles un certificat phytosanitaire est requis doivent être accompagnées d'un certificat phytosanitaire officiel, établi par le Service phytosanitaire du pays d'origine de la marchandise, ou d'un certificat de réexportation et d'une copie authentifiée du certificat d'origine.

Lors du dédouanement, le document original du certificat est retiré par les organes de contrôle. Le cas échéant, il est remplacé par un passeport phytosanitaire suisse délivré par le SPF, qui doit accompagner l'envoi concerné jusqu'au lieu de destination. Les firmes qui ont l'intention de réexporter tout ou partie des marchandises importées, doivent au préalable faire une copie du certificat. Cette dernière servira de document de référence aux organes compétents pour l'établissement du certificat phytosanitaire de réexportation (certificat de réexportation).

#### ISPM 15 : Matériel d'emballage en bois et bois d'arrimage (L)

A l'annexe 1, les marchandises suivies de la lettre **L** sont concernées par la norme internationale sur les mesures phytosanitaires n° 15 (NIMP 15 ou, selon l'abréviation anglaise, ISPM 15). Y sont soumis les matériels d'emballage en bois, plateaux de chargement du type palette et bois de calage originaires de pays autres que ceux de l'UE, mais y compris le Portugal, constitués en tout ou partie de bois brut de feuillus et/ou de conifères.

Les emballages doivent être marqués par les producteur/fournisseurs du pays d'origine à l'aide du logo IPPC<sup>1</sup> prescrit par la NIMP 15. Le logo doit être apposé de manière à ce qu'il soit bien visible et être d'une couleur autre que rouge ou orange.

Les indications suivantes sont requises :

- Logo IPPC
- Code ISO du pays d'origine (YY-)
- N° d'agrément de l'entreprise (XXXXX)
- Sigle HT (Heat Treatment)

Ne sont pas soumis à la norme NIMP15 les matériels d'emballage constitués d'éléments en bois obtenus par collage, par un traitement à chaud ou par pressage (panneaux de bois aggloméré, contreplaqué, bois de placage) ainsi que de laine de bois et de sciure ou constitués de bois brut d'une épaisseur inférieure ou égale à 6 mm.

#### Passeport phytosanitaire européen (P1, P2, ZP)

Les marchandises pour lesquelles un passeport phytosanitaire est requis sont suivies à l'annexe 1 de la lettre **P1** ou **P2** et, le cas échéant, **ZP** (zone protégée). Seuls certains végétaux et produits végétaux provenant de pays de l'UE sont concernés par le passeport phytosanitaire.

Lors de l'importation de telles marchandises, les envois concernés ne doivent être, ni annoncés au SPF, ni soumis à un contrôle phytosanitaire. Des contrôles par sondage à la frontière ou chez le desti-

---

<sup>1</sup> International Plant Protection Convention (Convention internationale pour la protection des végétaux)

nataire sont réservés.

Le passeport phytosanitaire européen est un document officiel en vigueur dans les pays de l'UE et reconnu par la Suisse. Il est intégré à la facture ou au bulletin de livraison ou se présente sous la forme d'une étiquette ou d'un timbre. Le document doit accompagner les envois concernés jusqu'au lieu de destination.

#### Dérogations à des fins de recherche scientifique

L'art. 13 de l'OPV ordonnance sur la protection des végétaux autorise, à certaines conditions, l'importation de marchandises ne remplissant pas les conditions phytosanitaires d'importation, si l'importation est effectuée à des fins de recherche, de sélection, de multiplication ou de diagnostic.

Les demandes doivent être adressées à l'adresse de contact figurant au point 2. Le formulaire de demande ad hoc peut être téléchargé à partir du lien suivant :

<http://www.blw.admin.ch/themen/00012/01153/01168/index.html?lang=fr>

## **4 Explications des abréviations et des exigences phytosanitaires de l'annexe 1**

### **Colonne « Régime » :**

<b>V</b>	Interdit d'importation
<b>B</b>	Importation avec permis d'importation
<b>Z</b>	Certificat phytosanitaire
<b>Zi...</b>	Certificat phytosanitaire avec déclaration supplémentaire (voir plus bas) (Les explications additionnelles pertinentes figurent à l'annexe 1 directement sous les marchandises ou groupes de marchandises listés. Il y a lieu de relever qu'il y a lieu de mentionner dans le certificat phytosanitaire non seulement les explications additionnelles relatives à la plante, mais aussi les explications additionnelles relatives au groupe de marchandises.)
<b>P1</b>	Passeport phytosanitaire
<b>P2</b>	Passeport phytosanitaire, sauf pour les végétaux prêts pour la vente à des utilisateurs finals non-professionnels
<b>ZP</b>	Passeport phytosanitaire spécial comportant le sigle ZP-b2 ou ZP-d4 respectivement pour plantes sensibles au feu bactérien ou à la flavescence dorée de la vigne et destinées à l'une ou l'autre de ces zones protégées
<b>D</b>	Traitement de désinfestation et/ou de désinfection de la marchandise avant l'exportation (indications pertinentes sous rubriques 12 à 16 du certificat phytosanitaire)
<b>L</b>	ISPM 15 : Exigences auxquelles doit satisfaire l'importation de bois d'emballage et de bois de calage
<b>Q</b>	Mise en quarantaine aussitôt après l'arrivée en Suisse

### **Colonne « Exigences phytosanitaires »**

La colonne exigences phytosanitaires renvoie aux exigences spécifiques et à la base légale figurant dans l'OPV ou dans l'OMPT.

La présente notice remplace la Notice n° 1 du 1<sup>er</sup> février 2012, avec effet au 1<sup>er</sup> janvier 2015.

Office fédéral de l'agriculture OFAG

Hans Dreyer  
Responsable du secteur santé des végétaux et variétés

**Zi50 4AI/45.1**

Zi35      a) The plants originate in an area, established in the country of export by the national plant protection service, as being free from *Liriomyza sativae* (Blanchard) and *Amauromyza maculosa* (Malloch) and the area stated on the phytosanitary certificate.      "Fulfilis item 32.1a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended"  
(Also state the pest free area referred to above)  
or  
b) The plants originate in a place of production, established in the country of export by the national plant protection service, as being free from *Liriomyza sativae* (Blanchard) and *Amauromyza maculosa* (Malloch), and the area stated on the phytosanitary certificate, and declared free from *Liriomyza sativae* (Blanchard) and *Amauromyza maculosa* (Malloch) on official inspections carried out at least monthly during the three months prior to export.      "Fulfilis item 32.1b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended"  
(Also state the pest free place of production referred to above)  
or  
c) Immediately prior to export, the plants have been subjected to treatment against *Liriomyza sativae* (Blanchard) and *Amauromyza maculosa* (Malloch) and have been officially inspected and found free of these pests.      "Fulfilis item 32.1c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended"  
(Also provide details of the treatment used)

Zi37      a) The plants originate in an area known to be free from *Liriomyza huidobrensis* (Blanchard) and *Liriomyza trifolii* (Burgess)      "Fulfilis item 32.3a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."  
or  
b) No signs of *Liriomyza huidobrensis* (Blanchard) and *Liriomyza trifolii* (Burgess) have been observed at the place of production, on official inspections carried out at least monthly during the three months prior to harvesting.      "Fulfilis item 32.3b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."  
or  
c) Immediately prior to export, the plants have been officially inspected and found free from *Liriomyza huidobrensis* (Blanchard) and *Liriomyza trifolii* (Burgess) and have been subjected to an appropriate treatment against both pests.      "Fulfilis item 32.3c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."

Zi50      a) The plants originate in an area, established in the country of export by the national plant protection service in that country, as being free from *Bemisia tabaci* Genn. (non-European populations), and which is mentioned on the phytosanitary certificate.      "Fulfilis item 45.1a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."  
(Also state the pest free area referred to above)  
or  
b) The plants originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from *Bemisia tabaci* Genn. (non-European populations), and which is mentioned on the phytosanitary certificate, and declared free from on official inspections carried out at least once each three weeks during the nine weeks prior to export.      "Fulfilis item 45.1b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."  
(Also state the pest free place of production referred to above)  
or  
c) In cases where *Bemisia tabaci* Genn. (non-European populations) has been found at the place of production, the plants are held or produced in this place of production and have undergone an appropriate treatment to ensure freedom from *Bemisia tabaci* Genn. (non-European populations) and subsequently this place of production shall have been found free as a consequence of the implementation of appropriate procedures aiming at eradicating *Bemisia tabaci* Genn. (non-European populations) in both official inspections carried out weekly during the nine weeks prior to export and in monitoring procedures throughout the said period.      "Fulfilis item 45.1c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."  
(Also include details of the treatment referred to above)

a) The plants have been grown throughout their life in a place of production which is registered and supervised by the national plant protection organisation in the country of origin and situated in a pest-free area established by that organisation in accordance with relevant International Standards for Phytosanitary Measures. The name of the pest-free area shall be mentioned under 'place of origin'.  
Additional declaration required:

"Fulfil item I A 1 a of the appendix to intercept 8 of Annex 1 of the Ordinance on Temporary Measures for Plant Protection OTMP"

or

or

b) The plants have been grown, during a period of at least two years prior to export, in a place of production established as free from Anoplophora chinensis (Forster) in accordance with International Standards for Phytosanitary Measures:

"Fulfil item I A 1 b of the appendix to intercept 8 of Annex 1 of the Ordinance on Temporary Measures for Plant Protection OTMP"

(i) which is registered and supervised by the national plant protection organisation in the country of origin; and

(ii) which has been subjected annually to at least two official meticulous inspections for any sign of Anoplophora chinensis (Forster) carried out at appropriate times and no signs of the organism have been found; and

(iii) where the plants have been grown in a site:

— with complete physical protection against the introduction of Anoplophora chinensis (Forster); or

— with the application of appropriate preventive treatments and surrounded by a buffer zone with a radius of at least two km where official surveys for the presence or signs of Anoplophora chinensis (Forster) are carried out annually at appropriate times. In case signs of Anoplophora chinensis (Forster) are found, eradication measures are immediately taken to restore the pest freedom of the buffer zone; and

(iv) where immediately prior to export consignments of the plants have been subjected to an official meticulous inspection, for the presence of the specified organism, in particular in roots and stems of the plants. This inspection shall include targeted destructive sampling. The size of the sample for inspection shall be such as to enable at least the detection of 1% level of infestation with a level of confidence of 99%.

or

or

c) that the plants have been grown from rootstocks which meet the requirements of

 b) have, for a period of at least two years prior to export, been grown in a place of production where no signs of *Agrilus planipennis* Fairmaire have been observed during two official inspections per year carried out at appropriate times, including immediately prior to export.

or  
 "Fulfil item 11.4 (b) of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."

Zi69 a) The plants have been grown throughout their life in a place of production which is registered and supervised by the national plant protection organisation in the country of origin and situated in a pest-free area established by that organisation in accordance with relevant International Standards for Phytosanitary Measures. The name of the pest-free area shall be mentioned under 'place of origin'.  
 Additional declaration required:

"Fulfil item I A 1 a of the appendix to intercept 8 of Annex 1 of the Ordinance on Temporary Measures for Plant Protection OTMP"

or  
 b) The plants have been grown, during a period of at least two years prior to export, in a place of production established as free from *Anoplophora chinensis* (Forster) in accordance with International Standards for Phytosanitary Measures:  
 (i) which is registered and supervised by the national plant protection organisation in the country of origin; and  
 (ii) which has been subjected annually to at least two official meticulous inspections for any sign of *Anoplophora chinensis* (Forster) carried out at appropriate times and no signs of the organism have been found; and  
 (iii) where the plants have been grown in a site:  
 — with complete physical protection against the introduction of *Anoplophora chinensis* (Forster); or  
 — with the application of appropriate preventive treatments and surrounded by a buffer zone with a radius of at least two km where official surveys for the presence or signs of *Anoplophora chinensis* (Forster) are carried out annually at appropriate times. In case signs of *Anoplophora chinensis* (Forster) are found, eradication measures are immediately taken to restore the pest freedom of the buffer zone; and  
 (iv) where immediately prior to export consignments of the plants have been subjected to an official meticulous inspection, for the presence of the specified organism, in particular in roots and stems of the plants. This inspection shall include targeted destructive sampling. The size of the sample for inspection shall be such as to enable at least the detection of 1% level of infestation with a level of confidence of 99%.

or  
 "Fulfil item I A 1 b of the appendix to intercept 8 of Annex 1 of the Ordinance on Temporary Measures for Plant Protection OTMP"

or  
 c) that the plants have been grown from rootstocks which meet the requirements of point (b), grafted with scions which meet the following requirements:  
 (i) at the time of export, the grafted scions are no more than 1cm in diameter at their thickest point;  
 (ii) the grafted plants have been inspected in accordance with point (b) (iv).

or  
 "Fulfil item I A 1 c of the appendix to intercept 8 of Annex 1 of the Ordinance on Temporary Measures for Plant Protection OTMP"
