

Non-Quarantine Pest List (5 Genera and 189 Species)

in the Concerned Public Notice of the amended Enforcement Ordinance of the Plant Protection Law

(Amended portions are under lined)

Injurious Animals

1. Arthropods: 173 species

Abraxas miranda, *Acarus siro*, *Acrothinium gaschkevitschii*, *Actias artemis*, *Actias gnoma*, *Aleurocanthus cinnamomi*, *Aleuroglyphus ovatus*, *Anomoneura mori*, *Antheraea yamamai*, *Antonina crawii*, *Aonidiella aurantii*, *Aonidiella citrina*, *Aphis craccivora* (excluding those adhered to the plant used for planting), *Aphis fabae* (excluding those adhered to the plant used for planting), *Aphis gossypii* (excluding those adhered to the plant used for planting), *Aphis nerii*, *Aphrophora flavipes*, *Arge nigrinodosa*, *Arge nipponensis*, *Arge pagana*, *Arge similis*, *Armadillidium vulgare*, *Artona martini*, *Aspidiotus destructor*, *Aspidiotus excisus*, *Atractomorpha psittacina*, *Aulacaspis rosae*, *Aulacorthum circumflexum* (excluding those adhered to the plant used for planting), *Aulacorthum solani* (excluding those adhered to the plant used for planting), *Bactrocera depressa*, *Batracomorphus diminutus*, *Bombyx mandarina*, *Bothrogonia ferruginea*, *Brahmaea japonica*, *Brevicoryne brassicae*, *Brevipalpus lewisi*, *Brevipalpus obovatus*, *Bruchus pisorum*, *Bruchus rufimanus*, *Bryobia rubrioculus*, *Callosobruchus chinensis*, *Carpophilus hemipterus*, *Cassida nebulosa*, *Chauliops fallax*, *Chirothrips manicatus*, *Chrysolina aurichalcea*, *Chrysomela populi*, *Chrysomphalus bifasciculatus*, *Chrysomphalus dictyospermi*, *Chrysomphalus aonidum*, *Cicadella viridis*, *Cinara piceae*, *Cnaphalocrocis medinalis*, *Coptotermes formosanus*, *Cosmopolites sordidus*, *Criotettix japonicus*, *Cryptolestes ferrugineus*, *Cryptolestes pusilloides*, *Cryptolestes pusillus*, *Cryptolestes turcicus*, *Dactylispa issikii*, *Diaspidiotus perniciosus*, *Diaspis bromeliae*, *Diaspis echinocacti*, *Dinoderus japonicus*, *Dinoderus minutus*, *Diostrombus politus*, *Dysaphis tulipae*, *Earias roseifera*, *Ephestia elutella*, *Epicauta gorhami*, *Epuraea domina*, *Eriococcus coccineus*, *Erionota torus*, *Euparatettix insularis*, *Evacanthus interruptus*, *Everes argiades*, *Frankliniella intonsa* (excluding those adhered to the plant used for planting), *Frankliniella occidentalis* (excluding those adhered to the plant used for planting), *Fulmekiola serrata*, *Gastrolina depressa*, *Geisha distinctissima*, *Glyphodes perspectalis*, *Gnathocerus cornutus*, *Grapholita molesta*, *Graphosoma rubrolineatum*, *Gryllus bimaculatus*, *Heliothrips haemorrhoidalis*, *Hemiberlesia lataniae*, *Hemiberlesia rapax*, *Haritalodes derogata*, *Heterobostrychus hamatipennis*, *Japananus hyalinus*, *Kermococcus nakagawae*, *Lampides boeticus*, *Lasioderma serricorne*, *Lepidosaphes gloverii*, *Lepidosaphes pini*, *Liorhyssus hyalinus*, *Lophocateres pusillus*, *Loxoblemmus doenitzi*, *Lyctus brunneus*, *Macrosiphum euphorbiae* (excluding those adhered to the plant used for planting), *Martyringa xeraula*, *Melanaspis bromiliae*, *Milviscutulus mangiferae*, *Minthea rugicollis*, *Mythimna separata*, *Myzus persicae* (excluding those adhered to the plant used for planting), *Nemapogon granella*, *Nezara viridula*, *Odoiporus longicollis*, *Oryzaephilus mercator*, *Oryzaephilus surinamensis*, *Ostrinia furnacalis*, *Palpita nigropunctalis*, *Panonychus citri*,

Panonychus ulmi, *Pantomorus cervinus*, *Parasaissetia nigra*, *Parlatoria pergandii*, *Penthimia nitida*, *Peridroma saucia*, *Phthorimaea operculella*, *Phytoecia rufiventris*, *Pieris rapae*, *Plutella xylostella*, *Pryeria sinica*, *Pseudococcus comstocki*, *Pseudococcus longispinus* (excluding those adhered to the plant used for planting), *Ptilineurus marmoratus*, *Ptinus clavipes*, *Ptinus japonicus*, *Pyrrhalta fuscipennis*, *Pyrrhalta maculicollis*, *Rhizoglyphus robini*, *Rhizopertha dominica*, *Rhodinia fugax*, *Rhopalus maculatus*, *Saissetia coffeae*, *Sitophilus oryzae*, *Sitophilus zeamais*, *Sitotroga cerealella*, *Spodoptera litura*, *Stegobium paniceum*, *Stephanitis pyrioides*, *Stephanitis takeyai*, *Stigmaeopsis celarius*, *Syrista similis*, *Teleogryllus emma*, *Teleogryllus occipitalis*, *Tenebroides mauritanicus*, *Tetranychus kanzawai*, *Tetranychus ludeni*, *Tetranychus phaselus*, *Tetranychus truncatus*, *Tetranychus urticae*, *Tetrix japonica*, *Theretra japonica*, *Thrips flavus*, *Thrips simplex*, *Thrips tabaci*, *Thyestilla gebleri*, *Tribolium castaneum*, *Tribolium confusum*, *Trogoderma inclusum*, *Trogoderma varium*, *Tyrophagus putrescentiae*, *Udonomeiga vicinalis*, *Uhlerites debilis*, *Urochela luteovaria*, *Urophorus humeralis* and *Vanessa indica*

Injurious Plants and Microorganisms

1. Fungi: 5 genera and 14 species

Alternaria citri, *Alternaria solani*, *Appendiculella calostroma*, *Armatella litseae*, Genus *Aspergillus*, *Asteridiella raphiolepidis*, *Asterina daphniphylli*, *Botrytis cinerea*, *Botrytis allii*, *Ceratocystis paradoxa*, *Cladosporium cucumerinum*, *Claviceps purpurea*, *Geotrichum candidum*, *Macrophomina phaseolina*, Genus *Nigrospora*, Genus *Penicillium*, Genus *Rhizopus*, *Sclerotinia sclerotiorum* and Genus *Trichothecium*

2. Viruses: 2 species

Cymbidium mosaic virus and *Odontoglossum ringspot virus*
