Consolidation of regulated pests for Canada

Introduction

The purpose of the Consolidation of Regulated Pests for Canada (Consolidation) presented below is to make available a listing of regulated pests for Canada which complies with the International Standards for Phytosanitary Measures 19 – *Guidelines on lists of regulated pests* (ISPM 19)¹. The Consolidation will be updated as soon as feasible upon the identification of modification needs (e.g., addition or deletion of pests).

To account for ISPM 19, the main structure of the Consolidation is based on the categories of regulated pests as defined in the International Plant Protection Convention:

“Quarantine pest” - a pest of potential economic importance to the area endangered thereby and not yet present there, or present but not widely distributed and being officially controlled; and

“Regulated non-quarantine pest” - a non-quarantine pest whose presence in plants for planting affects the intended use of those plants with an economically unacceptable impact and which is therefore regulated within the territory of the importing contracting party.

Quarantine Pests for Canada

Association with regulated article(s): – The regulated articles for the listed pests are contained in the sources listed in the reference documents column. Plant Protection Policy Directives, Risk Management Documents (RMD) and Acts/Regulations may be accessed from the Canadian Food Inspection Agency (CFIA) Web site:

- Directives: <http://www.inspection.gc.ca/english/plaveg/protect/dir/directe.shtml>
- RMDs: <http://www.inspection.gc.ca/english/plaveg/protect/rmd/rmde.shtml>
- Acts/Regulations: <http://www.inspection.gc.ca/english/reg/rege.shtml>

In addition, for convenience and reference only the CFIA’s Automated Import Reference System (AIRS) specifies species and commodities that are regulated for these pests (<http://www.inspection.gc.ca/english/imp/airse.shtml>).

¹ Canada’s National Plant Protection Organization publishes an uncategorized subset of regulated pests: see <http://www.inspection.gc.ca/english/plaveg/protect/listpespare.shtml>. In comparison, the Consolidation contains the information required by ISPM 19 and presents a more inclusive listing of regulated pests, including those pests regulated under the authorities of the Canadian *Plant Protection Act* (S.C. 1990, c. 22) and *Seeds Act* (1985, c. S-8).

Regulated Non-Quarantine Pests for Canada

Association with regulated article(s): – References to the host commodities or other articles that are regulated for the listed pests are found in Plant Protection Policy Directives, inspection procedures, the *Seeds Regulations* and the *Weed Seeds Order, 2005*. In addition, for convenience and reference only the CFIA's Automated Import Reference System (AIRS) specifies species and commodities that are regulated for these pests (<http://www.inspection.gc.ca/english/imp/airse.shtml>).

A. Regulated Non-Quarantine Pests of Seed Potatoes

The regulated non-quarantine pests of seed potatoes listed below are under official control through the operation of the Canadian Seed Potato Certification program. The CFIA is responsible for the administration of this program through the authorities provided by the *Seeds Act* and *Seeds Regulations*.

The phytosanitary requirements associated to these regulated non-quarantine pests of potatoes can be found in sources such as:

- The *Seeds Act* and *Seeds Regulations*, and in particular Part II of these regulations which applies to seed potatoes that are sold or advertised for sale in Canada, imported into Canada or exported from Canada (<http://www.inspection.gc.ca/english/reg/rege.shtml>); and

July 8, 2015

- Plant Protection Policy Directives D-96-05, 97-08, D-97-11, D-98-01 (see <http://www.inspection.gc.ca/english/plaveg/protect/dir/directe.shtml>) and inspection procedures.

Part II of the *Seeds Regulations* establishes classes of seed potatoes with associated standards for the crop and the tubers. These standards include guidelines and tolerances for diseases which are specific to a pest or pest type, or which refer to symptoms that may be caused by a number of pests. The Nuclear Stock seed potato class is the highest quality class – as compared to the field generation classes (Pre-Elite, Elites I-IV, Foundation, Certified) – and as such are associated to more stringent disease standards.

For additional information on regulated pests of potatoes including contact information please visit the CFIA’s potatoes Web site:

<http://www.inspection.gc.ca/english/plaveg/potpom/potpome.shtml>.

B. Regulated Non-Quarantine Pests (RNQP) of Seed

i. RNQP Plants of Seed

The seeds of the species of plants set out in the class categories below, as presented in the Schedule of the *Weed Seeds Order, 2005*, are deemed to be weed seeds for the purpose of establishing grades under the *Seeds Act*. Acts/Regulations may be accessed from the CFIA Web site: <http://www.inspection.gc.ca/english/reg/rege.shtml>.

July 8, 2015

Class 1, Prohibited Noxious Weed Seeds: Applicable to all tables of Schedule I to the *Seeds Regulations*, Part I

SCIENTIFIC NAME	SELECTED SYNONYMS	COMMON NAME
<i>Acroptilon repens</i> (L.) DC.	<i>Centaurea repens</i> L.	Russian knapweed
<i>Aegilops cylindrica</i> Host		Jointed goatgrass
<i>Carduus nutans</i> L.		Nodding thistle
<i>Centaurea diffusa</i> Lam.		Diffuse knapweed
<i>Centaurea solstitialis</i> L.		Yellow star thistle
<i>Centaurea stoebe</i> L.	<i>Centaurea maculosa</i> Lam.	Spotted knapweed
<i>Conium maculatum</i> L.		Poison Hemlock
<i>Crupina vulgaris</i> Cass.		Common crupina
<i>Cuscuta</i> spp. *		Dodder
<i>Datura stramonium</i> L.		Jimsonweed
<i>Eriochloa villosa</i> (Thunb.) Kunth		Woolly cup grass
<i>Euphorbia esula</i> L.		Leafy spurge
<i>Halogeton glomeratus</i> (M. Bieb.) C.A. Mey.		Halogeton
<i>Lepidium appelianum</i> Al-Shehbaz	<i>Cardaria pubescens</i> (C.A. Mey.) Jarm.	Globe-pod hoary cress
<i>Lepidium draba</i> L. subsp. <i>chalepense</i> (L.) Thell.	<i>Cardaria chalepensis</i> (L.) Hand.-Mazz.	Lens-pod hoary cress
<i>Lepidium draba</i> L. subsp. <i>draba</i>	<i>Cardaria draba</i> (L.) Desv.	Heart-pod hoary cress
<i>Nassella trichotoma</i> (Nees) Hack. ex Arechav.		Serrated tussock
<i>Odontites vernus</i> (Bellardi) Dumort. subsp. <i>serotinus</i> (Dumort.) Corb.	<i>Odontites serotina</i> Dumort.	Red bartsia
<i>Solanum carolinense</i> L.		Horse nettle (Ball nettle)
<i>Sorghum halepense</i> (L.) Pers.		Johnson grass

*Quarantine pest also regulated under the Canadian *Plant Protection Act* and associated regulations.

Class 2, Primary Noxious Weed Seeds: Applicable to all tables of Schedule I to the *Seeds Regulations*, Part I, except Tables XIV and XV

SCIENTIFIC NAME	SELECTED SYNONYMS	COMMON NAMES
<i>Abutilon theophrasti</i> Medik.		Velvetleaf
<i>Ambrosia trifida</i> L.		Giant ragweed

July 8, 2015

<i>Barbarea</i> spp.		Yellow rocket or winter cress
<i>Cirsium arvense</i> (L.) Scop.		Canada thistle
<i>Convolvulus arvensis</i> L.		Field bindweed
<i>Elytrigia repens</i> (L.) Desv. ex Nevski	<i>Agropyron repens</i> (L.) Beauv.	Couchgrass
<i>Galium aparine</i> L.		Cleavers*
<i>Galium spurium</i> L.		False cleavers*
<i>Leucanthemum vulgare</i> Lam.	<i>Chrysanthemum leucanthemum</i> L.	Ox-eye daisy
<i>Linaria</i> spp.		Toadflax
<i>Lythrum salicaria</i> L.		Purple loosestrife
<i>Raphanus raphanistrum</i> L.		Wild radish
<i>Senecio jacobaea</i> L.		Tansy ragwort
<i>Setaria faberi</i> R. A. W. Herrm.		Giant foxtail
<i>Silene latifolia</i> Poir. subsp. <i>alba</i> (Mill.) Greuter & Burdet	<i>Silene pratensis</i> (Rafn) Gord. & Gren.	White cockle
<i>Silene vulgaris</i> (Moench) Garcke		Bladder campion
<i>Sinapis arvensis</i> L.		Wild mustard
<i>Sonchus arvensis</i> L.		Perennial sow thistle

*Seed to which Table VII to Schedule I applies shall be free from seeds of *G. aparine* and *G. spurium*.

Class 3, Secondary Noxious Weed Seeds: Applicable to all tables of Schedule I to the *Seeds Regulations*, Part I, except Tables XIV and XV

SCIENTIFIC NAME	SELECTED SYNONYMS	COMMON NAMES
<i>Ambrosia artemisiifolia</i> L.		Common ragweed
<i>Anthemis cotula</i> L.		Mayweed (stinking mayweed)
<i>Avena fatua</i> L.		Wild oat*
<i>Avena sterilis</i> L.		Wild oat, Sterile oat
<i>Camelina</i> spp.		False flax
<i>Cichorium intybus</i> L.		Chicory
<i>Daucus carota</i> L. subsp. <i>carota</i>		Wild carrot
<i>Erucastrum gallicum</i> (Willd.) O.E. Schulz		Dog mustard
<i>Lepidium campestre</i> (L.) R. Br.		Field peppergrass
<i>Lolium persicum</i> Boiss. &		Persian darnel

July 8, 2015

Hohen.		
<i>Plantago lanceolata</i> L.		Ribgrass (Narrow-leaved plantain)
All <i>Rumex species</i> except <i>R. maritimus</i> L. & <i>R. acetosella</i> L.		Dock
<i>Silene noctiflora</i> L.		Night-flowering catchfly
<i>Sisymbrium loeselii</i> L.		Tall hedge mustard
<i>Thlaspi arvense</i> L.		Stinkweed
<i>Tripleurospermum maritimum</i> (L.) W. D. J. Koch subsp. <i>inodorum</i> (L.) Appleg.	<i>Matricaria maritima</i> L.	Scentless chamomile
<i>Vaccaria hispanica</i> (Mill.) Rauschert	<i>Saponaria vaccaria</i> L.	Cow cockle

*Seed to which Tables I to III to Schedule I apply shall be free from *A. fatua* in Quebec, Nova Scotia, New Brunswick and Prince Edward Island.

Class 4, Secondary Noxious Weed Seeds: Applicable to Table XII of Schedule I to the *Seeds Regulations*, Part I.

SCIENTIFIC NAME	SELECTED SYNONYMS	COMMON NAMES
<i>Cerastium</i> spp.		Chickweed, mouse-ear
<i>Digitaria</i> spp.		Crabgrass
<i>Panicum</i> spp.		Panic grass
<i>Prunella vulgaris</i> L.		Heal-all
<i>Stellaria media</i> (L.) Vill.		Chickweed, common

Class 5, Noxious Weed Seeds: Applicable to Tables XIV and XV of Schedule I to the *Seeds Regulations*, Part I.

SCIENTIFIC NAME	SELECTED SYNONYMS	COMMON NAMES
<i>Cerastium</i> spp.		Chickweed, mouse-ear
<i>Cirsium arvense</i> (L.) Scop.		Canada thistle
<i>Digitaria</i> spp.		Crabgrass
<i>Elytrigia repens</i> (L.) Desv. ex Nevski	<i>Agropyron repens</i> (L.) Beauv.	Couchgrass
<i>Leucanthemum vulgare</i> Lam.	<i>Chrysanthemum leucanthemum</i> L.	Ox-eye daisy
<i>Panicum</i> spp.		Panic grass
<i>Prunella vulgaris</i> L.		Heal-all
<i>Sonchus arvensis</i> L.		Perennial sow thistle

July 8, 2015

<i>Stellaria media</i> (L.) Vill.		Chickweed, common
<i>Tripleurospermum maritimum</i> (L.) W. D. J. Koch subsp. <i>inodorum</i> (L.) Appleg.	<i>Matricaria maritima</i> L.	Scentsless chamomile

Other: Seed to which Tables I to III of Schedule I to the *Seeds Regulations*, Part I, apply shall be free from *Fagopyrum tataricum* (L.) Gaertn. (Buckwheat, tartarian) in Manitoba, Saskatchewan, Alberta and British Columbia.

ii. RNQP Fungi of Seed, as referenced in the *Seeds Regulations*, Part I.

SCIENTIFIC NAME	COMMON NAME OF REGULATED ARTICLE	SEED HOST	TABLE IN SEEDS REGULATIONS WHERE REFERENCED
<i>Claviceps purpurea</i> (Fr.) Tul.	Ergot body	Wheat	I, II, III, IX, XI, XII, XIII, XIV
<i>Ustilago nuda</i> (C.N. Jensen) Rostr.	Loose smut	Barley	II, III
<i>Sclerotinia sclerotiorum</i> (Lib.) de Bary	Sclerotia body	Sunflower	V, VI, VII, VIII, IX
