

Decree Nr. 1068/1
Protection from Xylella fastidiosa when importing plant product

The Minister of Agriculture,

Based on Decree Nr 11217 dated 15/2/2014 (forming of the Government)

Based on Decree Nr 5246 dated 20/6/1994 (organization of the Ministry of Agriculture)

Based on Law Nr 31 dated 18/01/1955 and its amendments (specifying the role of the Ministry of Agriculture)

Based on Law Nr 778 dated 28/11/2006 (Plant Quarantine & Phytosanitary Measures)

Based on Decree Nr. 783/1 dated 26/8/2011 (Importing Plant Propagating Material) and specially article 5

Based on Decree Nr. 161/1 dated 4/3/2015 (Amendment for Decree Nr. 783/1 dated 26/8/2011)

And in the framework of measures taken to prevent the introduction of Bacteria Xylella fastidiosa into the country with hosted plant product

Based on the recommendation of the Director General of the Ministry

Decreases the following :

Article 1: All consignment of fruit seedlings and ornamental plants, including plants, partial plants as leaves, Branches, Twigs, Roots, flowers (except seeds) which is mentioned in the annex, must be accompanied by an original phytosanitary certificate, mentioned in the additional declaration that consignment is free from Bacteria Xylella fastidiosa and must be accompanied by additional declaration certificate proof that consignment was produced in Pest Free Area Zone from Bacteria Xylella fastidiosa under the supervision of the NPPO of the country of origin with specifying the name of the production place.

Article 2: Plant Quarantine officers at Border Inspection Point have to tough control plants and the partial plants mentioned in the Annex

Article 3: To be published and enters into force on the date of publish. Excepting consignment loaded before publishing as proved on the bill of lading
To be notified wherever needed

Beirut, *11 th November 2015*
Minister of Agriculture
Akram chouhaib
