BAFU: Bundesamt für Umwelt

3 Pflanzenschutzbestimmungen bei der Einfuhr

Waren, die potenzielle Träger von besonders gefährlichen Schadorganismen sein können unterstehen bei der Einfuhr phytosanitären Bestimmungen. Die jeweils festgelegten Einfuhrbestimmungen entsprechen dem Risiko, für die Einschleppung von besonders gefährlichen Schadorganismen, welches die eingeführte Ware darstellt. In der Folge werden die wichtigsten Begriffe erläutert.

Einfuhrverbot (V)

Für Waren, bei welchen ein sehr hohes phytosanitäres Risiko besteht, gilt ein generelles Einfuhrverbot. Zur Einfuhr verbotene Ware ist im Anhang 1 mit einem V vermerkt.

Einfuhrbewilligung (B)

Waren, deren Einfuhr nur unter bestimmten Bedingungen zulässig ist, unterstehen der Bewilligungspflicht. Sie sind im Anhang 1 mit **B** vermerkt. Die erforderliche Bewilligung ist bei der Kontaktstelle zu beantragen.

Achtung: Dieses Merkblatt gibt keine Auskunft über Bewilligungen, die einen anderen Hintergrund als den Pflanzenschutz haben!

Pflanzenschutzzeugnis (PC, PC...)

Waren, für welche bei der Einfuhr ein Pflanzenschutzzeugnis (**PC**), oder ein Pflanzenschutzzeugnis mit einer zusätzlichen Erklärung (**PC...**) erforderlich ist, sind im Anhang 1 entsprechend aufgeführt. Davon betroffen sind grundsätzlich nur Waren aus Nicht-EU-Ländern.

Bei der Einfuhr in die Schweiz unterliegen die bewilligungs- und/oder zeugnispflichtigen Waren der Kontrolle durch den Eidgenössischen Pflanzenschutzdienst (EPSD). Die entsprechenden Sendungen müssen dem EPSD spätestens am Tag vor der Einfuhr angemeldet werden. Für nicht angemeldete

Sendungen ist mit einer verzögerten phytosanitären Abfertigung zu rechnen.

Die zeugnispflichtigen Waren müssen von einem amtlichen Pflanzenschutzzeugnis begleitet sein, ausgestellt vom Pflanzenschutzdienst des Ursprungslandes oder von einem Wiederausfuhrzeugnis und einer beglaubigten Kopie des Pflanzenschutzzeugnisses des Ursprungslandes.

Bei der Einfuhrverzollung wird das Original des Pflanzenschutzzeugnisses von den Kontrollorganen eingezogen. Nötigenfalls wird es von einem vom EPSP ausgestellten schweizerischen Pflanzenpass ersetzt, welcher die betreffende Sendung bis zum Empfänger begleiten muss. Firmen, die beabsichtigen, eingeführte Waren ganz oder teilweise wieder auszuführen, müssen vorgängig vom Pflanzenschutzzeugnis eine Kopie erstellen. Diese ist für die zuständigen Organe erforderlich (Grundlage), um das Pflanzenschutzzeugnis für die Wiederausfuhr (Wiederausfuhrzeugnis) ausstellen zu können.

ISPM 15: Verpackungs- und Stauholz (L)

Waren, für welche der internationale Standard ISPM 15 erforderlich ist, sind in Anhang 1 mit **L** aufgeführt. Betroffen sind Verpackungsmaterialien, Ladungsträger und Stauholz mit Ursprung in Nicht-EU-Ländern (sog. Drittländern), jedoch einschliesslich Portugal, die ganz oder teilweise aus unverarbeitetem Laub- und/oder Nadelmassivholz gefertigt sind.

Die Verpackungen werden vom Produzenten/Lieferanten des Ursprungslandes nach dem Standard ISPM 15 behandelt und mit dem vorgeschriebenen IPPC¹-Logo markiert. Letzteres muss deutlich sichtbar angebracht werden und sollte weder in den Farben rot noch orange sein.

Folgende Angaben sind zwingend:

- IPPC-Logo
- ISO-Code des Ursprungslandes (**YY**-)
- Zulassungsnummer des Betriebes (**XXXXXX**)
- Kennzeichen **HT** (Heat Treatment)

Nicht unter die ISPM 15 Auflagen fallen Verpackungsmaterialien, die aus Holzwerkstoffen, welche während der Verarbeitung geleimt, erhitzt oder gepresst wurden (Spanplatten, Sperrholz, Furniere), sowie aus Holzwolle und Sägemehl gefertigt sind oder die aus Rohholz von 6 mm Stärke oder weniger hergestellt sind.

Pflanzenpass (P1, P2, P3, ZP)

Waren, für welche ein Pflanzenpass erforderlich ist, sind im Anhang 1 mit **P1**, **P2** oder **P3** und gegebenenfalls **ZP** (Schutzgebiet) aufgeführt. Vom Pflanzenpass betroffen sind nur gewisse Pflanzen und Pflanzenerzeugnisse mit Ursprung aus EU-Ländern.

Bei der Einfuhr solcher Ware unterliegen die betroffenen Sendungen weder der Anmelde- noch der Kontrollpflicht beim EPSP. Stichprobenartige Kontrollen an der Grenze wie auch beim Empfänger sind jedoch zu jeder Zeit möglich.

Der europäische oder EG-Pflanzenpass ist ein amtliches Dokument, das in der EU Gültigkeit hat und von der Schweiz anerkannt wird. Der Pflanzenpass ist entweder in der Rechnung oder im Lieferschein

¹ International **P**lant **P**rotection **C**onvention

integriert oder liegt in der Form einer Etikette oder eines Stempels vor. Er muss die betreffenden Sendungen jeweils bis an den Bestimmungsort begleiten.

Ausnahmen zu wissenschaftlichen Zwecken

Artikel 13 der Pflanzenschutzverordnung erlaubt unter der Erfüllung bestimmter Bedingungen die Einfuhr von Waren, die den phytosanitären Einfuhrbestimmungen nicht genügen, zu Forschungszwecken, für die Zucht, die Vermehrung oder für Diagnosedienste.

Gesuche sind bei der unter Punkt 2. erwähnten Kontaktstelle einzureichen. Das dazu notwendige Antragsformular ist unter folgendem Link zu finden:

[Antrag Ermächtigung: Schadorganismen, Erde, Pflanzen - Einfuhr oder Verschiebung.doc](#)

4 Erklärung der Abkürzungen und der phytosanitären Anforderungen in Anhang 1

Spalte ‚Regime‘:

- V** Generelles Einfuhrverbot.
- B** Einfuhr nur in Verbindung mit einem Bewilligungsverfahren
- PC** Pflanzenschutzzeugnis
- PC...** Pflanzenschutzzeugnis mit Zusatzerklärung (Die jeweils relevanten Zusatzerklärungen („Additional Declaration“, **AD**) sind im Anhang 2 aufgeführt. Es ist zu beachten, dass für Pflanzen, nebst den für die einzuführenden Pflanzen spezifischen Zusatzerklärungen, auch die Zusatzerklärungen der entsprechenden Warengruppen geltenden, und auf dem Pflanzenschutzzeugnis aufzuführen sind).
- P1** Pflanzenpass
- P2** Pflanzenpass, ausser für verkaufsfertige Pflanzen für nichtberufliche Endbenutzer
- P3** Pflanzenpass erforderlich für Pflanzen oder Pflanzenerzeugnisse mit Herkunft in einem abgegrenzten Gebiet aufgrund des Auftretens eines bestimmten Schadorganismus (z.B. *Bursaphelenchus xylophilus* und *Epitrix* sp. in Portugal und Spanien, *Anoplophora chinensis* in Italien und *Xylella fastidiosa* in Italien, Spanien und Frankreich; vgl. www.pflanzenschutzdienst.ch oder sich beim EPSP erkundigen).
- M** Bei der Einfuhr von „spezifizierten Pflanzen“ aus einem abgegrenzten Gebiet besteht eine obligatorische [Meldepflicht](#) beim EPSP.
- ZP** Sonderpflanzenpass, mit dem Vermerk ZP-b2 oder ZP-d4 für Wirtspflanzen des Feuerbrandes beziehungsweise Grapevine flavescence dorée MLO, die für das betreffende Schutzgebiet (zona protecta) bestimmt sind
- L** ISPM 15: Anforderungen an die Einfuhr von Verpackungs- und Stauholz
- Q** Wird unmittelbar nach der Einfuhr in die Schweiz unter Quarantäne gestellt

Spalte ‚Phytosanitäre Anforderungen‘

Die Spalte „Phytosanitäre Anforderungen“ verweist auf die besonderen Anforderungen, und deren rechtliche Grundlagen in der PSV respektive VPM, hin.

Das vorliegende Merkblatt ersetzt ab 1. September 2019 das Merkblatt Nr. 1 vom 01. Juli 2018.

Annex 2 - Additional declarations on phytosanitary certificates

Sigle	Text of the citation	Additional declaration required
AD01	<p>a) The plants originate in areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr.</p> <p>or</p> <p>b) No symptoms of <i>Cryphonectria parasitica</i> (Murrill) Barr have been observed at the place of production or its immediate vicinity since the beginning of the last complete cycle of vegetation.</p>	<p>"Fulfil item 11.2 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 11.2 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>
AD02	<p>a) The plants originate in an area, established in the country of export by the national plant protection service in that country, as being free from <i>Anisogramma anomala</i> (Peck) E. Muller and which is mentioned on the phytosanitary certificate.</p> <p>or</p> <p>b) The plants originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from <i>Anisogramma anomala</i> (Peck) E. Muller, on official inspections carried out at the place of production or its immediate vicinity since the beginning of the last three complete cycles of vegetation and which is mentioned on the phytosanitary certificate.</p>	<p>"Fulfil item 11.3 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended." (Also state the pest free area referred to above)</p> <p>or</p> <p>"Fulfil item 11.3 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended." (Also state the pest free place of production referred to above)</p>
AD03	<p>a) The plants have been grown throughout their life in an area free from <i>Agrilus planipennis</i> Fairmaire, established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures</p> <p>or</p> <p>b) have, for a period of at least two years prior to export, been grown in a place of production where no signs of <i>Agrilus planipennis</i> Fairmaire have been observed during two official inspections per year carried out at appropriate times, including immediately prior to export.</p>	<p>"Fulfil item 11.4 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 11.4 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended"</p>
AD04	<p>official statement that:</p> <p>(a) the plants originate in a country in which <i>Trioza erytrae</i> Del Guercio is known not to occur,</p> <p>or</p> <p>(b) the plants originate in an area free from <i>Trioza erytrae</i> Del Guercio, established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures, and which is mentioned on the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration',</p> <p>or</p> <p>(c) the plants have been grown in a place of production, which is registered and supervised by the national plant protection organisation in the country of origin, and where the plants are placed in a site with complete physical protection against the introduction of <i>Trioza erytrae</i> Del Guercio, and where, during the last complete cycle of vegetation prior to the movement, two official inspections were carried out at appropriate times and no signs of <i>Trioza erytrae</i> Del Guercio have been observed in that site, and in the surrounding area with a width of at least 200 m.'</p>	<p>"Fulfil item 18.2 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 18.2 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 18.2 c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>
AD05	<p>(a) the plants originate in a country in which <i>Diaphorina citri</i> Kuway is known not to occur,</p> <p>or</p> <p>(b) the plants originate in an area free from <i>Diaphorina citri</i> Kuway, established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures, and which is mentioned on the certificates referred to in Article 13.1 (ii) of this Directive under the rubric "Additional declaration".'</p>	<p>"Fulfil item 18.3 a, option one of Annexe IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 18.3 b, option two of Annexe IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>

Sigle	Text of the citation	Additional declaration required
AD06	<p>(a) the fruits originate in a country recognised as being free of <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i> in accordance with relevant International Standards for Phytosanitary Measures, provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission,</p> <p>or</p> <p>(b) the fruits originate in an area established by the national plant protection organisation in the country of origin as being free from <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>, in accordance with the relevant International Standards for Phytosanitary Measures, which is mentioned on the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration', provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission,</p> <p>or</p> <p>c) the fruits originate in a place of production established by the national plant protection organisation in the country of origin as being free from <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i> in accordance with relevant International Standards for Phytosanitary Measures, which is mentioned on the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration',</p> <p>or</p> <p>d) the site of production and the immediate vicinity are subject to appropriate treatments and cultural practices against <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>, and the fruits have been subjected to a treatment with sodium orthophenylphenate, or another effective treatment mentioned on the certificates referred to in Article 13(1)(ii), provided that the treatment method has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission, and official inspections carried out at appropriate times prior to export have shown that the fruits are free from symptoms of <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>, and information on traceability is included in the certificates referred to in Article 13(1)(ii),</p> <p>or</p> <p>(e) in the case of fruits destined for industrial processing, official inspections prior to export have shown that the fruits are free from symptoms of <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>, and</p> <p>the site of production and the immediate vicinity are subject to appropriate treatments and cultural practices against <i>Xanthomonas citri</i> pv. <i>citri</i> and <i>Xanthomonas citri</i> pv. <i>aurantifolii</i>, and movement, storage and processing takes place under conditions, approved in accordance with the procedure referred to in Article 18(2),</p> <p>and</p> <p>the fruits have been transported in individual packages bearing a label, which contains a traceability code and the indication that the fruits are destined for industrial processing,</p> <p>and</p> <p>information on traceability is included in the certificates referred to in Article 13(1)(ii).'</p>	<p>"Fulfilis item 16.2 a of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfilis item 16.2 b of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfilis item 16.2 c of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfilis item 16.2 d of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfilis item 16.2 e of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended."</p>

Sigle	Text of the citation	Additional declaration required
AD07	<p>(a) the fruits originate in a country recognised as being free from <i>Cercospora angolensis</i> Carv. et Mendes in accordance with relevant International Standards for Phytosanitary Measures, provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission,</p> <p>or</p> <p>(b) the fruits originate in an area recognised as being free from <i>Cercospora angolensis</i> Carv. et Mendes, in accordance with the relevant International Standards for Phytosanitary Measures, which is mentioned on the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration', provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third</p> <p>or</p> <p>(c) no symptoms of <i>Cercospora angolensis</i> Carv. et Mendes have been observed in the site of production and in its immediate vicinity since the beginning of the last cycle of vegetation, and none of the fruits harvested in the site of production has shown, in appropriate official examination, symptoms of this organism.'</p>	<p>"Fulfil item 16.3 a of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended".</p> <p>or</p> <p>"Fulfil item 16.3 b of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.3 c of Annex IVAl of Plant Protection Ordinance (PPO 916.20) as amended."</p>

Sigle	Text of the citation	Additional declaration required
AD08	<p>(a) the fruits originate in a country recognised as free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa, in accordance with relevant International Standards for Phytosanitary Measures, provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission,</p> <p>or</p> <p>(b) the fruits originate in an area established by the national plant protection organisation in the country of origin as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with relevant International Standards for Phytosanitary Measures, which is mentioned on the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration', provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission,</p> <p>or</p> <p>(c) the fruits originate in a place of production established by the national plant protection organisation in the country of origin as being free from <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa in accordance with relevant International Standards for Phytosanitary Measures, which is mentioned on the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration', and the fruits are found free of symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa by official inspection of a representative sample, defined in accordance with international standards,</p> <p>or</p> <p>(d) the fruits originate in a site of production subjected to appropriate treatments and cultural measures against <i>Phyllosticta citricarpa</i> (McAlpine) van der Aa, and official inspections have been carried out in the site of production during the growing season since the beginning of the last cycle of vegetation, and no symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) van der Aa have been detected in the fruits, and the harvested fruits from that site of production are found free of symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa during an official inspection prior to export, of a representative sample, defined in accordance with international standards, and information on traceability is included in the certificates referred to in Article 13(1)(ii),</p> <p>or</p> <p>(e) in the case of fruits destined for industrial processing, the fruits have been found free of symptoms of <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa prior to the export during an official inspection of a representative sample, defined in accordance with international standards, and a statement that the fruits originate in a site of production subjected to appropriate treatments against <i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa carried out at the appropriate time is included in the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration', and movement, storage and processing takes place under conditions, approved in accordance with the procedure referred to in Article 18(2), and the fruits have been transported in individual packages bearing a label, which contains a traceability code and the indication that the fruits are destined for industrial processing, and information on traceability is included in the certificates referred to in Article 13(1)(ii).'</p>	<p>"Fulfil item 16.4 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.4 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.4 c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.4 d of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.4 e of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>

Sigle	Text of the citation	Additional declaration required
AD11	<p>Without prejudice to the provisions applicable to the fruits in Annex IV(A)(I) (16.1.), (16.2.), (16.3.), (16.4.), and (16.6.) official statement that:</p> <p>(a) the fruits originate in a country recognised as free from Tephritidae (non- European), to which those fruits are known to be susceptible, in accordance with relevant International Standards for Phytosanitary Measures, provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission,</p> <p>or</p> <p>(b) the fruits originate in an area established by the national plant protection organisation in the country of origin as being free from Tephritidae (non- European), to which those fruits are known to be susceptible, in accordance with relevant International Standards for Phytosanitary Measures, which is mentioned on the certificates referred to in Article 13(1)(ii) under the rubric 'Additional declaration', provided that this freedom status has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission,</p> <p>or</p> <p>(c) no signs of Tephritidae (non-European), to which those fruits are known to be susceptible, have been observed at the place of production and in its immediate vicinity since the beginning of the last complete cycle of vegetation, on official inspections carried out at least monthly during the three months prior to harvesting, and none of the fruits harvested at the place of production has shown, in appropriate official examination, signs of the relevant organism and information on traceability is included in the certificates referred to in Article 13(1)(ii),</p> <p>or</p> <p>(d) have been subjected to an effective treatment to ensure freedom from Tephritidae (non-European), to which those fruits are known to be susceptible, and the treatment data should be indicated on the certificates referred to in Article 13(1)(ii), provided that the treatment method has been communicated in advance in writing by the national plant protection organisation of the third country concerned to the Commission.</p>	<p>"Fulfil item 16.5 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.5 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.5 c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 16.5 d of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>
AD12	<p>a) The plants originate in countries recognised as being free from <i>Erwinia amylovora</i> (Burr.) Winsl. et al.</p> <p>or</p> <p>c) The plants in the field of production and in its immediate vicinity, which have shown symptoms of <i>Erwinia amylovora</i> (Burr.) Winsl. Et al have been removed.</p>	<p>"Fulfil item 17 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 17 c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p><i>Item 17b of Annex IVIA does not apply as no pest free areas have been established in accordance with Article 18(2) of Directive 2000/29.</i></p>
AD13	<p>a) the plants originate in countries known to be free from <i>Radopholus citrophilus</i> Huettel et al. and <i>Radopholus similis</i> (Cobb) Thorne.</p> <p>or</p> <p>b) Representative samples of soil and roots from the place of production have been subjected to official nematological testing for at least <i>Radopholus citrophilus</i> Huettel et al. And <i>Radopholus similis</i> (Cobb) Thorne, since the beginning of the last complete cycle of vegetation, and have been found, in these tests, free from those harmful organisms.</p>	<p>"Fulfil item 18 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 18 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>

Sigle	Text of the citation	Additional declaration required
AD14	<p>i) The plants, other than those raised from seed, have been officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least Strawberry latent «C» virus, Strawberry vein banding virus and Strawberry witches' broom mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms.</p> <p>or</p> <p>ii) The plants have been derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least Strawberry latent «C» virus, Strawberry vein banding virus and Strawberry witches' broom mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms.</p>	<p>"Fulfil item 21.1 a, option one of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 21.1 a, option two of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>
AD15	<p>a) No symptoms of <i>Aphelenchoides besseyi</i> Christie have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation.</p> <p>or</p> <p>b) In the case of plants in tissue culture, the plants have been derived from plants which complied with a) above or have been officially tested by appropriate nematological methods and have been found free from <i>Aphelenchoides besseyi</i> Christie.</p>	<p>"Fulfil item 21.2 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 21.2 b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>
AD16	<p>i) The plants have been officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least Cherry rasp leaf virus (American) and Tomato ringspot virus using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms.</p> <p>or</p> <p>ii) The plants have been derived in direct line from material which is maintained under appropriate conditions and subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least Cherry rasp leaf virus (American) and Tomato ringspot virus using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms.</p>	<p>"Fulfil item 22.1 a, option one of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p> <p>or</p> <p>"Fulfil item 22.1 a, option two of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."</p>

AD124	<p>Specified plants originating from third countries, where the specified organism is known to be present, shall be accompanied by the certificate referred to in Article 13(1)(ii) of Directive 2000/29/EC. That certificate shall contain one of the following statements under the entry 'Additional Declaration':</p> <p>(a) that the plants have been grown throughout their life in a place of production which is registered and supervised by the national plant protection organisation in the country of origin and situated in an area, established by that organisation, in accordance with relevant International Standards for Phytosanitary Measures, as known to be free from the specified organism;</p> <p>(b) that the plants have been grown during a period of at least two years prior to export, or, in the case of plants which are younger than two years, have been grown throughout their life, in a place of production established as free from the specified organism, in accordance with the International Standards for Phytosanitary Measures, and that the following conditions are fulfilled: (i) the place of production is registered and supervised by the national plant protection organisation in the country of origin;</p> <p>(ii) the place of production has been subjected annually to at least two meticulous official inspections for any sign of the specified organism carried out at appropriate times, and no signs of the organism have been found; (iii) the place of production is with complete physical protection against the introduction of the specified organism, or has been subjected to appropriate preventive treatment and surrounded by a buffer zone with a radius of at least 4 km where official surveys for the presence or signs of the specified organism are carried out annually at appropriate times; (iv) where the presence or signs of the specified organism have been found, eradication measures have been immediately taken to restore the pest freedom of the buffer zone; (v) immediately prior to export, consignments of the plants have been subjected to a meticulous official inspection for the presence of the specified organism, in particular in stems and branches of those plants. That inspection has included targeted destructive sampling. Where consignments include plants originating in sites which at the time of their production were located in a buffer zone, where presence or signs of the specified organism had been found, destructive sampling of the plants of that consignment has been carried out at the level set out in the following table:</p> <p>Number of plants in lot Level of destructive sampling (number of plants to be destroyed) 1–4 500 10 % of lot size > 4 500 450</p> <p>(c) that the plants have been grown from rootstocks which fulfil the requirements of point (b), grafted with scions which meet the following requirements:</p> <p>(i) at the time of export, the grafted scions are no more than 1 cm in diameter at their thickest point;</p> <p>(ii) the grafted plants have been inspected in accordance with point (b)(ii).</p>	<p>Complies with article 11 a of Commission implementing decision (EU) 2018/1503</p> <p>Complies with article 11 b of Commission implementing decision (EU) 2018/1503</p> <p>Complies with article 11 c of Commission implementing decision (EU) 2018/1503</p>

For the purposes of point (a), the name of the area shall be mentioned under the entry 'place of origin'.
