ANNEXE 2 : Déclarations supplémentaires .....	87

La présente notice **ne traite pas** les questions relevant de la législation douanière, des contingents tarifaires, de la convention CITES et de l'importation par des particuliers dans le cadre du trafic voyageur ! Prière de s'adresser pour ce faire respectivement à l'Administration fédérale des douanes ([www.douane.ch](http://www.douane.ch)), à l'Office fédéral de la sécurité alimentaire et des affaires vétérinaires ([www.cites.ch](http://www.cites.ch)) ou à l'Office fédéral de l'agriculture, Secteur Importations et exportations ([www.blw.admin.ch](http://www.blw.admin.ch) > Thèmes > Importations et exportations).

Les dispositions visées dans l'ordonnance sur la protection des végétaux sont réservées.

## 1 Bases légales

- [Ordonnance du 27 octobre 2010 sur la protection des végétaux \(OPV\)](#)
- [Ordonnance de l'OFAG sur les mesures phytosanitaires pour l'agriculture et l'horticulture productrice \(OMP-OFAG\)](#)
- [Ordonnance de l'OFEV sur les mesures phytosanitaires au profit de la forêt \(OMP-OFEV\)](#)
- [Ordonnance du DEFR du 15 avril 2002 sur les végétaux interdits](#)

## 2 Centre de contact et compétences

### Centre de contact

Office fédéral de l'agriculture	tél.	058/462 25 50
Service phytosanitaire fédéral	fax	058/462 26 34

3003 Bern	e-mail	<a href="mailto:phyto@blw.admin.ch">phyto@blw.admin.ch</a>

### Compétences

- Plantes cultivées agricoles et produits qui en sont issus OFAG
- Plantes ornementales OFAG
- Végétaux forestiers et produits qui en sont issus OFEV
- Terre et milieu de culture OFAG
- Organismes vivants OFAG

OFAG : Office fédéral de l'agriculture

OFEV : Office fédéral de l'environnement

## 3 Dispositions phytosanitaires à l'importation

Les marchandises qui sont potentiellement porteuses d'organismes nuisibles particulièrement dangereux sont soumises à l'importation, aux prescriptions phytosanitaires. Celles-ci sont en fonction du risque d'introduction d'organismes nuisibles particulièrement dangereux représentés de la marchandise à importer. Ci-après, les termes les plus importants sont explicités.

### Interdiction d'importer (V)

L'interdiction d'importer est appliquée aux marchandises qui présentent un risque phytosanitaire accru. Les marchandises interdites d'importation sont signalées dans l'annexe 1 avec un V.

### Permis d'importation (B)

Les marchandises de l'annexe 1 suivies de la lettre **B**, dont l'importation n'est autorisée que sous certaines conditions, nécessitent l'octroi d'un permis. Les demandes de permis doivent également être adressées au centre de contact de l'OFAG.

**Attention :** la présente notice n'indique pas si une marchandise requiert un permis d'importation autre que celui exigé pour des motifs autres que phytosanitaires !

### Certificats phytosanitaires (PC, PC..)

Les marchandises pour lesquelles un certificat phytosanitaire (**PC**), le cas échéant, un certificat avec une déclaration supplémentaire (**PC...**) est requis, sont suivies de la/des lettre(s) correspondante(s) à l'annexe 1. En principe seules les marchandises en provenance de pays autres que ceux de l'UE (= pays tiers) sont concernées.

Lors de l'importation en Suisse, les marchandises nécessitant un permis et/ou un certificat phytosanitaire sont soumises au contrôle par le Service phytosanitaire fédéral (SPF). Les envois correspondants

doivent être annoncés au SPF au plus tard la veille de leur arrivée en Suisse. Pour les envois qui ne sont pas annoncés à temps, il faut s'attendre à des délais lors du dédouanement phytosanitaire.

Les marchandises pour lesquelles un certificat phytosanitaire est requis doivent être accompagnées d'un certificat phytosanitaire officiel, établi par le Service phytosanitaire du pays d'origine de la marchandise, ou d'un certificat de réexportation et d'une copie authentifiée du certificat d'origine.

Lors du dédouanement, le document original du certificat est retiré par les organes de contrôle. Le cas échéant, il est remplacé par un passeport phytosanitaire suisse délivré par le SPF, qui doit accompagner l'envoi concerné jusqu'au lieu de destination. Les firmes qui ont l'intention de réexporter tout ou partie des marchandises importées, doivent au préalable faire une copie du certificat. Cette dernière servira de document de référence aux organes compétents pour l'établissement du certificat phytosanitaire de réexportation (certificat de réexportation).

#### ISPM 15 : Matériel d'emballage en bois et bois d'arrimage (L)

A l'annexe 1, les marchandises suivies de la lettre **L** sont concernées par la norme internationale sur les mesures phytosanitaires n° 15 (NIMP 15 ou, selon l'abréviation anglaise, ISPM 15). Y sont soumis les matériels d'emballage en bois, plateaux de chargement du type palette et bois de calage originaires de pays autres que ceux de l'UE, mais y compris le Portugal, constitués en tout ou partie de bois brut de feuillus et/ou de conifères.

Les emballages doivent être marqués par les producteur/fournisseurs du pays d'origine à l'aide du logo IPPC<sup>1</sup> prescrit par la NIMP 15. Le logo doit être apposé de manière à ce qu'il soit bien visible et être d'une couleur autre que rouge ou orange.

Les indications suivantes sont requises :

- Logo IPPC
- Code ISO du pays d'origine (YY-)
- N° d'agrément de l'entreprise (XXXXX)
- Sigle HT (Heat Treatment)

Ne sont pas soumis à la norme NIMP15 les matériels d'emballage constitués d'éléments en bois obtenus par collage, par un traitement à chaud ou par pressage (panneaux de bois aggloméré, contreplaqué, bois de placage) ainsi que de laine de bois et de sciure ou constitués de bois brut d'une épaisseur inférieure ou égale à 6 mm.

#### Passeport phytosanitaire européen (P1, P2, P3, ZP)

Les marchandises pour lesquelles un passeport phytosanitaire est requis sont suivies à l'annexe 1 de la lettre **P1**, **P2** ou **P3** et, le cas échéant, **ZP** (zone protégée). Seuls certains végétaux et produits végétaux provenant de pays de l'UE sont concernés par le passeport phytosanitaire.

Lors de l'importation de telles marchandises, les envois concernés ne doivent être, ni annoncés au SPF, ni soumis à un contrôle phytosanitaire. Des contrôles par sondage à la frontière ou chez le destinataire sont réservés.

Le passeport phytosanitaire européen est un document officiel en vigueur dans les pays de l'UE et reconnu par la Suisse. Il est intégré à la facture ou au bulletin de livraison ou se présente sous la forme

---

<sup>1</sup> International **P**lant **P**rotection **C**onvention (Convention internationale pour la protection des végétaux)

d'une étiquette ou d'un timbre. Le document doit accompagner les envois concernés jusqu'au lieu de destination.

#### Dérogations à des fins de recherche scientifique

L'art. 13 de OPV ordonnance sur la protection des végétaux autorise, à certaines conditions, l'importation de marchandises ne remplissant pas les conditions phytosanitaires d'importation, si l'importation est effectuée à des fins de recherche, de sélection, de multiplication ou de diagnostic.

Les demandes doivent être adressées à l'adresse de contact figurant au point 2. Le formulaire de demande ad hoc peut être téléchargé à partir du lien suivant :

[Demandes d'autorisation : Organismes nuisibles, terre, végétaux importation ou déplacement.doc](#)

#### **4 Explications des abréviations et des exigences phytosanitaires de l'annexe 1**

##### **Colonne « Régime » :**

- V** Interdit d'importation
- B** Importation avec permis d'importation
- PC** Certificat phytosanitaire
- PC...** Certificat phytosanitaire avec déclaration supplémentaire (Les déclarations supplémentaire (« Additional Declaration », **AD**) pertinentes figurent à l'annexe 2. Il y a lieu de relever qu'il y a lieu de mentionner dans le certificat phytosanitaire non seulement les déclarations supplémentaires relatives à la plante, mais aussi les déclarations supplémentaires relatives au groupe de marchandises.)
- P1** Passeport phytosanitaire
- P2** Passeport phytosanitaire, sauf pour les végétaux prêts pour la vente à des utilisateurs finals non-professionnels
- P3** Passeport phytosanitaire requis si les végétaux ou produits végétaux concernés proviennent d'une zone délimitée en raison de la présence d'un organisme nuisible donné (p. ex. *Bursaphelenchus xylophilus* et *Epitrix* sp. au Portugal et en Espagne, *Anoplophora chinensis* en Italie et *Xylella fastidiosa* en Italie, Espagne et en France; voir [www.servicephyto.ch](http://www.servicephyto.ch) ou se renseigner auprès du SPF).
- M** En cas d'importation de « végétaux spécifiés » provenant de zones délimitées, chaque lot doit immédiatement être [annoncé](#) au SPF
- ZP** Passeport phytosanitaire spécial comportant le sigle ZP-b2 ou ZP-d4 respectivement pour plantes sensibles au feu bactérien ou à la flavescence dorée de la vigne et destinées à l'une ou l'autre de ces zones protégées
- L** ISPM 15 : Exigences auxquelles doit satisfaire l'importation de bois d'emballage et de bois de calage
- Q** Mise en quarantaine aussitôt après l'arrivée en Suisse

##### **Colonne « Exigences phytosanitaires »**

La colonne exigences phytosanitaires renvoie aux exigences spécifiques et à la base légale figurant dans l'OPV ou dans l'OMP.

La présente notice remplace la Notice n° 1 du 1<sup>er</sup> Juillet 2018, avec effet au 1<sup>er</sup> Septembre 2019.

Office fédéral de l'agriculture OFAG

Alfred Kläy  
Responsable du secteur santé des végétaux et variétés

# Annexe 1 - Liste des marchandises

Marchandise / Nom botanique	Origine	Régime	Exigences phytosanitaires			Tarif douanier
			OPV	OMP-OFAG	OMP-OFEV	Tares
<b>Plantes vivantes autres que bulbes, cormes, rhizomes, tubercules</b>						
A. Dispositions générales, applicables à tous végétaux destinés à la plantation, tels que plantes racinées, boutures, greffons, rameaux-greffons et cultures tissulaires et, le cas échéant, aux catégories de végétaux concernées						
<b>Plantes vivantes</b>

(Also state the pest free area referred to above)
	or b) The plants originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from <i>Bemisia tabaci</i> Genn. (non-European populations), and which is mentioned on the phytosanitary certificate, and declared free from on official inspections carried out at least once each three weeks during the nine weeks prior to export.	or "Fulfil item 45.1b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."  (Also state the pest free place of production referred to above)
	or c) In cases where <i>Bemisia tabaci</i> Genn. (non-European populations) has been found at the place of production, the plants are held or produced in this place of production and have undergone an appropriate treatment to ensure freedom from <i>Bemisia tabaci</i> Genn. (non-European populations) and subsequently this place of production shall have been found free as a consequence of the implementation of appropriate procedures aiming at eradicating <i>Bemisia tabaci</i> Genn. (non-European populations) in both official inspections carried out weekly during the nine weeks prior to export and in monitoring procedures throughout the said period.	or "Fulfil item 45.1c of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."  (Also include details of the treatment referred to above)
		<i>Details of the treatment shall be mentioned on the phytosanitary certificate.</i>
<b>AD27</b>	a) the tubers originate in a country where <i>Scrobipalopsis solanivora</i> Povolny is not known to occur;	"Fulfil item 25.4.2 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
	or b) the tubers originate in an area free from <i>Scrobipalopsis solanivora</i> Povolny, established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures.	or "Fulfil item 25.4.2 (b) of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
<b>AD28</b>	a) The plants originate in areas which have been found free from <i>Pseudomonas solanacearum</i> (Smith) Smith.	"Fulfil item 25.7 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
	or b) No symptoms of <i>Pseudomonas solanacearum</i> (Smith) Smith have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation.	or "Fulfil item 25.7b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
<b>AD29</b>	a) No signs of <i>Helicoverpa armigera</i> Hübner or <i>Spodoptera littoralis</i> (Boisd.) have been observed at the place of production since the beginning of the last complete cycle of vegetation.	"Fulfil item 27.1 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
	or b) The plants have undergone appropriate treatment to protect them from of <i>Helicoverpa armigera</i> Hübner and <i>Spodoptera littoralis</i> (Boisd.).	or "Fulfil item 27.1b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
<b>AD30</b>	a) No signs of <i>Spodoptera eridiana</i> Cramer, <i>Spodoptera frugiperda</i> Smith or <i>Spodoptera litura</i> (Fabricius) have been observed at the place of production since the beginning of the last complete cycle of vegetation.	"Fulfil item 27.2 a of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
	or b) The plants have undergone appropriate treatment to protect them from <i>Spodoptera eridiana</i> Cramer, <i>Spodoptera frugiperda</i> Smith and <i>Spodoptera litura</i> (Fabricius).	or "Fulfil item 27.2b of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
<b>AD31</b>	b)i) The plants or cuttings have come from premises which have been officially inspected at least monthly, during the three months prior to dispatch and on which no symptoms of <i>Puccinia horiana</i> Hennings have been known to have observed during that period, and in the immediate vicinity of which no symptoms have been known to have occurred during the three months prior to export.	"Fulfil item 28b, option one of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."
	or b)ii) The plants have undergone appropriate treatment against <i>Puccinia horiana</i> Hennings.	or "Fulfil item 28b, option two of Annex IVAI of Plant Protection Ordinance (PPO 916.20) as amended."

Sigle	Text of the citation	Additional declaration required
AD109	(a) The specified plants originate in a third country where the <i>Spodoptera frugiperda</i> L. is not known to be present	Complies with article 4 a of Decision 2018/638/EC
	(b) The specified plants originate in an area free from <i>Spodoptera frugiperda</i> L., as established by the national plant protection organisation concerned, in accordance with the relevant International Standards for Phytosanitary Measures; the name of that area shall be stated in the phytosanitary certificate under the rubric 'place of origin'	Complies with article 4 b of Decision 2018/638/EC
	(c) The specified plants originate in areas other than those referred to in points (a) and (b), and they comply with the following conditions:	Complies with article 4 c of Decision 2018/638/EC
	(i) the specified plants have been produced in a production site which is registered and supervised by the national plant protection organisation in the country of origin;	
	(ii) official inspections have been carried out in the production site during the three months prior to export, and no presence of the specified organism has been detected on the specified plants;	
(iii) prior to their export, the specified plants have been subject to an official inspection and found free from the specified organism;		
(iv) information ensuring the traceability of the specified plants to their site of production has been ensured during their movement prior to export;		
(v) the specified plants have been produced in a production site which is provided with complete physical protection against the introduction of the specified organism;	Complies with article 4 d of Decision 2018/638/EC	
(d) The specified plants originate in areas other than those referred to in points (a) and (b), and they comply with points (c) (i to iv) and have been subjected to an effective treatment to ensure freedom from the specified organism;		
(e) The specified plants originate in areas other than those referred to in points (a) and (b), and they have been subjected to an effective post-harvest treatment to ensure freedom from the specified organism, and the treatment is indicated on the phytosanitary certificate.	Complies with article 4 e of Decision 2018/638/EC	
AD110	Without prejudice to the provisions applicable to wood referred to in Annex IV(A)(2.3), (2.4) and (2.5), official statement that the wood:	"Fulfils item 1.8 a of Annex IV(A) of Plant Protection Ordinance (PPO 916.20) as amended."
	(a) originates in an area free from <i>Geosmithia morbida</i> Kolarík, Freeland, Utley & Tisserat and its vector <i>Pityophthorus juglandis</i> Blackman, established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures, and which is mentioned on the certificates referred to in Article 13(1)(ii) of this Directive under the rubric 'Additional declaration',	
	or (b) has undergone an appropriate heat treatment to achieve a minimum temperature of 56 °C for a minimum duration of 40 continuous minutes throughout the entire profile of the wood. There shall be evidence thereof by a mark 'HT' put on the wood or on any wrapping in accordance with current usage, and on the certificates referred to in Article 13(1)(ii),	
or (c) has been squared to entirely remove the natural rounded surface.	or "Fulfils item 1.8 c of Annex IV(A) of Plant Protection Ordinance (PPO 916.20) as amended."	
AD111	Without prejudice to the provisions referred to in Annex IV(A)(1.8.), (2.3.), (2.4.) and (2.5.), official statement that the wood or the isolated bark:	"Fulfils item 1.9 a of Annex IV(A) of Plant Protection Ordinance (PPO 916.20) as amended."
	(a) originates in an area free from <i>Geosmithia morbida</i> Kolarík, Freeland, Utley & Tisserat and its vector <i>Pityophthorus juglandis</i> Blackman, established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures, and which is mentioned on the certificates referred to in Article 13(1)(ii) of this Directive under the rubric 'Additional declaration',	
or (b) has undergone an appropriate heat treatment to achieve a minimum temperature of 56 °C for a minimum duration of 40 continuous minutes throughout the entire profile of the bark or the wood, the latter to be indicated on the certificates referred to in Article 13(1)(ii).'	or "Fulfils item 1.9 b of Annex IV(A) of Plant Protection Ordinance (PPO 916.20) as amended."

AD124	<p>Specified plants originating from third countries, where the specified organism is known to be present, shall be accompanied by the certificate referred to in Article 13(1)(ii) of Directive 2000/29/EC. That certificate shall contain one of the following statements under the entry 'Additional Declaration':</p> <p>(a) that the plants have been grown throughout their life in a place of production which is registered and supervised by the national plant protection organisation in the country of origin and situated in an area, established by that organisation, in accordance with relevant International Standards for Phytosanitary Measures, as known to be free from the specified organism;</p> <p>(b) that the plants have been grown during a period of at least two years prior to export, or, in the case of plants which are younger than two years, have been grown throughout their life, in a place of production established as free from the specified organism, in accordance with the International Standards for Phytosanitary Measures, and that the following conditions are fulfilled: (i) the place of production is registered and supervised by the national plant protection organisation in the country of origin;</p> <p>(ii) the place of production has been subjected annually to at least two meticulous official inspections for any sign of the specified organism carried out at appropriate times, and no signs of the organism have been found; (iii) the place of production is with complete physical protection against the introduction of the specified organism, or has been subjected to appropriate preventive treatment and surrounded by a buffer zone with a radius of at least 4 km where official surveys for the presence or signs of the specified organism are carried out annually at appropriate times; (iv) where the presence or signs of the specified organism have been found, eradication measures have been immediately taken to restore the pest freedom of the buffer zone; (v) immediately prior to export, consignments of the plants have been subjected to a meticulous official inspection for the presence of the specified organism, in particular in stems and branches of those plants. That inspection has included targeted destructive sampling. Where consignments include plants originating in sites which at the time of their production were located in a buffer zone, where presence or signs of the specified organism had been found, destructive sampling of the plants of that consignment has been carried out at the level set out in the following table:</p> <p>Number of plants in lot Level of destructive sampling (number of plants to be destroyed) 1–4 500 10 % of lot size &gt; 4 500 450</p> <p>(c) that the plants have been grown from rootstocks which fulfil the requirements of point (b), grafted with scions which meet the following requirements:</p> <p>(i) at the time of export, the grafted scions are no more than 1 cm in diameter at their thickest point;</p> <p>(ii) the grafted plants have been inspected in accordance with point (b)(ii).</p>	<p>Complies with article 11 a of Commission implementing decision (EU) 2018/1503</p> <p>Complies with article 11 b of Commission implementing decision (EU) 2018/1503</p> <p>Complies with article 11 c of Commission implementing decision (EU) 2018/1503</p>

*For the purposes of point (a), the name of the area shall be mentioned under the entry 'place of origin'.*

<b>AD125</b>	Specified wood, other than in the form of chips, particles, shavings, wood waste and scrap, originating from third countries, where the specified organism is known to be present, shall be accompanied by the certificate referred to in Article 13(1)(ii) of Directive 2000/29/EC. That certificate shall contain one of the following statements under the entry 'Additional Declaration':	Complies with article 12.1 a of Commission implementing decision (EU) 2018/1503
	(a) the wood originates in areas, established by the national plant protection organisation in the country of origin, in accordance with relevant International Standards for Phytosanitary Measures, as known to be free from the specified organism;	
	(b) the wood is debarked and has undergone an appropriate heat treatment to achieve a minimum temperature of 56 °C for a minimum duration of 30 continuous minutes throughout the entire profile of the wood, including at its core;	Complies with article 12.1 b of Commission implementing decision (EU) 2018/1503
	(c) the wood has undergone appropriate ionising radiation to achieve a minimum absorbed dose of 1kGy throughout the wood.	Complies with article 12.1 c of Commission implementing decision (EU) 2018/1503
<p><i>The name of the area referred to in point (a) shall be mentioned under the entry 'place of origin'.</i></p> <p><i>For the purposes of point (b), the heat treatment shall be evidenced by a mark 'HT' put on the wood or on any wrapping, in accordance with current usage.</i></p>		
<b>AD126</b>	Specified wood in the form of chips, particles, shavings, wood waste and scrap originating from third countries, where the specified organism is known to be present, shall be accompanied by the certificate referred to in Article 13(1)(ii) of Directive 2000/29/EC. That certificate shall contain one of the following statements under the entry 'Additional Declaration':	Complies with article 12.2 a of Commission implementing decision (EU) 2018/1503
	(a) the wood originates from areas, established by the national plant protection organisation in the country of origin, in accordance with relevant International Standards for Phytosanitary Measures, as known to be free from the specified organism;	
	(b) the wood is debarked and has undergone an appropriate heat treatment to achieve a minimum temperature of 56 °C for a minimum duration of 30 continuous minutes throughout the entire profile of the wood, including at its core;	Complies with article 12.2 b of Commission implementing decision (EU) 2018/1503
	(c) the wood has been processed into pieces of not more than 2,5 cm thickness and width.	Complies with article 12.2 c of Commission implementing decision (EU) 2018/1503
<p><i>For the purposes of point (a), the name of the area shall be mentioned under the entry 'place of origin'</i></p>
